

THE BEATO BOOK 4.0

A CREATIVE APPROACH TO MUSIC THEORY
AND IMPROVISATION
FOR GUITAR AND OTHER INSTRUMENTS

BY RICK BEATO

THE BEATO BOOK

Copyright © 1990 Rick Beato

This book is dedicated to my Mom and Dad.

Special thanks to my wife Nina and our three beautiful children Dylan, Lennon and Layla; my brothers and sisters Pat, Nancy, Mike, Lou, Ray and Jon; and my teachers and friends Steve Brown, Mick Goodrick, Glen Cummings, Paul Smith, Pat Ryan, Tom Wadsworth, Keith Williams and Ken Lanyon.

A very special thanks to my dear friend and never-ending source of musical inspiration Aydin Esen.

Additional thanks to Christan Lamby, Michelle Taylor, Aaron Shah, Rhett Shull and Carol Kuswanto for making this book and my YouTube channel possible.

Cover design by Michael Murray

I would also like to thank all of you out there that have supported me through this journey!

Rick

Author's Note

I have spent many hours compiling this book in order to give my students a comprehensive reference source from which to draw. Since this book is not copy-protected it would be easy to make a photo copy of it for one of your friends. **Please don't.** I make a small living as a musician and am making even less from the sale of this book. I appeal to you as a fellow musician to respect the work of others, whether it's written material or recorded works. If one of your friends is interested in checking out the book, let them borrow it for a couple of days to get a feel for it. If they like it, encourage them to pick up a copy. When a book or recording is illegally copied, the publisher or record company has no way of monitoring interest in the project. This not only steals from the artist but may prevent them from having an opportunity to again express themselves in that medium. Good luck!

CHAPTER 1

THEORY AND HARMONY

Chapter 1: Theory and Harmony

A thorough understanding of intervals is of the utmost importance in studying all types of music, as intervals are the building blocks of polyphonic music.

Each interval has vastly different sound characteristics and must be committed to memory aurally and visually.

Intervals can be sounded together (harmonically) or sequentially (melodically).

There are twelve intervals in the space of an octave.

Interval Names and Symbols

	Unison	m2	M2	m3	M3	P4	A4/d 5	P5	m6	M6	m7	M7	P8
$\frac{1}{2}$ steps	0	1	2	3	4	5	6	7	8	9	10	11	12

Key: m = minor
M = Major
A = Augmented
d = diminished
P = Perfect

Ex. 1

$\frac{1}{2}$ steps	0	1	2	3	4	5	6	7	8	9	10	11
	Unison	m2	M2	m3	M3	P4	A4 / d5	P5	m6	M6	m7	M7

Perfect

1st Unison

4th Fourths

5th Fifths

8th Octave

Augmented

Diminished

Major

Minor

Imperfect

2nds Seconds

7ths Sevenths

3rds Thirds

6ths Sixths

Perfect Intervals: Octave, Unison, Fifth, Fourth

become augmented when enlarged by a half step

become diminished when reduced by a half step

Imperfect Intervals: Second, Seventh, Third, Sixth

1) Major Intervals

become augmented when enlarged by a half step

become minor when reduced by a half step

2) Minor Intervals

become major when enlarged by a half step

become diminished when reduced by a half step

Naming Intervals

To precisely identify an interval, generic interval classification must be made based on the number of letter names spanned. For Example:

Ex. 2

C to F

letter names

C	D	E	F
1	2	3	4

4 letters spanned

a fourth = generic classification

Ex. 3

F to Ab

letter names

F	G	A
1	2	3

3 letters spanned

a third = generic classification

Once the generic classification has been determined, a more precise description (e.g., perfect, major, minor, diminished or augmented) can be made, based on the number of steps between the two pitches.

Ex. 4

C to F

C	C#	D	D#	E	F
✓	✓	✓	✓	✓	
1	2	3	4	5	

5 half steps = P4 perfect fourth
 $\frac{1}{2}$ steps spanned

Ex. 5

F to Ab

F	F#	G	Ab
✓	✓	✓	
1	2	3	

3 half steps = m3 minor third
 $\frac{1}{2}$ steps spanned

Ex. 6

Here are some more examples of intervals:

(D=Doubly)

P4 m7 M6 m2 DA 6 P5 d5 M3

Enharmonic Intervals

Interval types that contain an equivalent number of half steps but have different names (e.g., Augmented Second and Minor Third) are **enharmonically equivalent**. In other words, they are aurally identical but theoretically different.

Interval Characteristics

In Western Music, the tonal relationships within the range of one octave have been reduced to twelve equal intervals, the twelve notes of which comprise the chromatic scale, through the system of equal temperament. A chart of intervals comprised in an octave is below:

Interval	Characteristic
m2	Sharp Dissonance
M2	Mild Dissonance
m3	Soft Consonance
M3	Soft Consonance
P4	Consonance or Dissonance
TT	Neutral or Restless
P5	Open Consonance
m6	Soft Consonance
M6	Soft Consonance
m7	Mild Dissonance
M7	Sharp Dissonance
P8	Open Consonance

The Circle of Fifths

Order of Flats

Number of Flats - 0 1 2 3 4 5 6 7
Key - C F Bb Eb Ab Db Gb Cb

Order of Sharps

Number of Sharps - 0 1 2 3 4 5 6 7
Key - C G D A E B F# C#

Chords and Their Formulas

Though there are many systems from which to build chords, tertian (third intervals) harmony is the most common in western music.

The stacking of two third intervals produces triads, the fundamental structures in tertian harmony. If these triads originate from one particular key center (signature) they are called diatonic triads. Triads may be built on every note of a particular scale. A seven note scale yields the same number of diatonic triads, not including suspensions which we will discuss later.

Diatonic Triads in C major

Ex. 8

Diagram illustrating the diatonic triads in C major, showing the notes and their corresponding Roman Numeral symbols:

Triad	Notes	Roman Num.
C	C-E-G	I
D-	D-F-A	ii
E-	E-G-B	iii
F	F-A-C	IV
G	G-B-D	V
A-	A-C-E	vi
B°	B-D-F	vii°

Roman Numeral Symbols

upper case	=	major triad
lower case	=	minor triad
°	=	diminished
+	=	augmented

The Roman Numeral system employed has evolved for analysis of chord progressions and their relationship to a relative tonal center. Roman Numerals will be thoroughly discussed in an ensuing segment.

Building Diatonic Triads

The four basic diatonic triad categories are: major, minor, diminished and augmented

Interval Composition

Ex. 9

Interval composition for C major triad: m3 (C-E) and M3 (E-G).
= C major = 1 3 5

Ex. 10

Interval composition for C minor triad: M3 (C-Bb) and m3 (Bb-Eb).
= C minor = 1 b3 5

Ex. 11

Interval composition for C diminished triad: m3 (C-Bb) and m3 (Bb-Db).
= C dim = 1 b3 b5

Ex. 12

Interval composition for C augmented triad: M3 (C-E) and M3 (E-G#).
= C aug = 1 3 #5

Building Diatonic Seventh Chords

Seventh Chords are composed of three thirds stacked vertically.

Ex. 13

	C_{MA}^7	$D-7$	$E-7$	F_{MA}^7	G^7	$A-7$	$B-7^{b5}$
C Major							
Roman Numeral	I^{MA7}	ii^7	iii^7	IV^{MA7}	V^7	vi^7	vii^{7b5}

	$C-^{MA7}$	$D-7$	E^{b+MA7}	F^7	G^7	$A-7^{b5}$	$B-7^{b5}$
C mel. minor							
Roman Numeral	i^{MA7}	ii^7	$bIII^{+MA7}$	IV^7	V^7	vi^{7b5}	vii^{7b5}

	$C-^{MA7}$	$D-7^{b5}$	E^{b+MA7}	$F-7$	G^7	A^{bMA7}	B^{o7}
Charm. minor							
Roman Numeral	i^{-MA7}	ii^{7b5}	$bIII^{+MA7}$	iv^{-7}	V^7	bVi^{Ma7}	vii^{o7}

The following reference chart includes both triad and seventh chords from major, melodic minor and harmonic minor. Roman numeral description and modal scale relationships have been included for study. "C" tonalities have been used in all instances.

Major Scale (Triads & Sevenths)

More About Seventh Chords

In case you did not understand some of the seventh chords already presented, let's review some basic seventh chord formulas.

Ex. 19

C_Ma⁷ =1 3 5 7 	C⁷ =1 3 5 b7 
C⁻7 =1 b3 5 b7 	C⁻7^{b5} =1 b3 b5 b7 
C^o7 =1 b3 b5 bb7 	C⁺Ma⁷ =1 3 #5 7 
C⁻Ma⁷ =1 b3 5 7 	C⁺7 =1 3 #5 b7 
C^oMa⁷ =1 b3 b5 7 	C⁻7^{#5} =1 b3 #5 b7 

Relative Major/Minor

Major and Minor scales are **Relative** when they share all seven pitches.

C Major...

...and it's relative minor, A Minor

Likewise, C Major is the relative major of A Minor.

Parallel Major/Minor

Major and Minor scales are **Parallel** when they share the same Root.

C Major...

...and it's parallel minor, C Minor

Likewise, C Major is the parallel major of C Minor.

Diatonic Triads from C Major and C Minor

Chords for Songwriters

An expanded harmonic vocabulary includes secondary dominants, and chords derived from parallel minor scales.

Triads

Primary Chords	C I	Dm ii	Em iii	F IV	G V	Am vi	B° vii°

Modal Mixture for Songwriters

There are 24 Major and Minor triads. These tables show how they each relate to C.

Borrowed from C Major

Major Triad	Relative Minor	Roman Numerals
C	Am	I / vi
F	Dm	IV / ii
G	Em	V / iii

Borrowed from C Minor

Major Triad	Relative Minor	Roman Numerals
E ^b	Cm	bIII / i
A ^b	Fm	bVI / iv
B ^b	Gm	bVII / v

Borrowed from Parallel Modes

Major Triad	Relative Minor	Roman Numerals	Borrowed from Parallel ____
D ^b	B ^b m	bII / bvii	Phrygian
D	Bm	II / vii	Lydian
G ^b	E ^b m	bV / biii	Locrian

Secondary V chords and their Relative Minors

Major Triad	Relative Minor	Roman Numerals	V/x
E	C [#] m / D ^b m	III / bii	V/vi
A	F [#] m / G ^b m	VI / bii	V/ii
B	G [#] m / A ^b m	VII / bvi	V/iii

Basic Triads

Triads contain three different pitches. Basic Triads are built by stacking pairs of third intervals. The lowest pitch in one of these stacks is called the Root. The pitch a third above the Root is called the Third, and the pitch a fifth above the Root is called the Fifth.

Triad Type	Interval: Root and Third	Interval: Third and Fifth	Interval: Root and Fifth	Formula
Diminished, d, °	m3	m3	d5	1 b3 b5
Minor, m	m3	M3	P5	1 b3 5
Major, M	M3	m3	P5	1 3 5
Augmented, A, +	M3	M3	A5	1 3 #5

Inversions are generated by changing which pitch appears in the low voice. A triad is in first inversion when the Third is in the low voice. A triad is in second inversion when the Fifth is in the low voice. A consequence of inversion is that the various intervals between the three voices (Low, Middle, and High) change.

Triad Type	Inversion	Interval: Low and Middle	Interval: Middle and High	Interval: Low and High	Formula
Diminished	1st	m3	A4	M6	b3 b5 1
Diminished	2nd	A4	m3	M6	b5 1 b3
Minor	1st	M3	P4	M6	b3 5 1
Minor	2nd	P4	m3	m6	5 1 b3
Major	1st	m3	P4	m6	3 5 1
Major	2nd	P4	M3	M6	5 1 3

Advanced Triads

Advanced Triads are built by stacking pairs of fourth intervals. These are called Quartal triads.

Triad Type	Interval: Low and Middle	Interval: Middle and High	Interval: Low and High
Q	P4	P4	m7
Q+	P4	A4	M7
+4Q	A4	P4	M7

Each inversion is treated as its own unique triad, and its lowest note is reinterpreted as a new Root.

Triad Type	Inversion	Name	Formula	Interval: Low and Middle	Interval: Middle and High	Interval: Low and High
Q	1st	sus4	1 4 5	P4	M2	P5
Q	2nd	sus2	1 2 5	M2	P4	P5
Q+	1st	Lydian	1 #4 5	A4	m2	P5
Q+	2nd	Locrian	1 b2 b5	m2	P4	d5
+4Q	1st	sus4b5	1 4 b5	P4	m2	d5
+4Q	2nd	Phrygian	1 b2 5	m2	A4	P5

Suspended Triads and Other Three Note Structures

Suspended triads are triads in which one member, usually the third, has been raised or lowered one scale step.

Ex. 20a

Ex. 20b

In example Ex. 20a the (E) moved one scale step (major scale) up to (F) creating a C suspended fourth triad. Example Ex. 20b the (E) moved down to a (D) creating a C suspended second triad. There are two other types of triads commonly used.

Ex. 21

The (E) of a C major triad is raised a whole step to (F#) to accommodate the #4 of a Lydian scale.

Ex. 22

The Sus4b5 triad is slightly different in that the fourth (F) is raised and the fifth (Gb) is flatted as in a Locrian scale.

In reality, certain suspensions such as sus2 or quartal voicing are simply inversions of sus4, Lydian or Locrian triads. It is because of their distinct sounds that I have chosen to name them in relation to their actual voicing.

Ex. 23

F^{sus2} is a 1st inversion of C^{sus4}

GQ is a 2nd inversion of C^{sus4}

The Q (Quartal) represents a triad containing two perfect fourths.

Ex. 24 GQ = 1 4 b7

Here are some other symbols to know.

Ex. 25

Chord Scales

Major Scale Modes

Scale Degree	Mode	Relation to Major Scale							Most Common Use
I, I ^{maj7}	Ionian	1	2	3	4	5	6	7	Maj ⁷
ii, ii ⁷	Dorian	1	2	b3	4	5	6	b7	Min ^{7 (nat.6)}
iii, iii ⁷	Phrygian	1	b2	b3	4	5	b6	b7	Min ⁷ , MajΔ/7
IV, IV ^{maj7}	Lydian	1	2	3	#4	5	6	7	Maj ^{7(#11)}
V, V ⁷	Mixolydian	1	2	3	4	5	6	b7	Dom ⁷
vi, vi ⁷	Aeolian	1	2	b3	4	5	b6	b7	Min ^{7(b6)}
vii ⁰ , vii ^{7b5}	Locrian	1	b2	b3	4	b5	b6	b7	Min ^{7b5}

Melodic Minor Modes

Scale Degree	Mode	Relation to Major Scale							Most Common Use
i, i ^{maj7}	Melodic Minor	1	2	b3	4	5	6	7	Min ^{maj7}
ii, ii ⁷	Dorian b2	1	b2	b3	4	5	6	b7	Min ^{7 sus4b9}
bIII ⁺ , bIII ^{+maj7}	Lydian Aug.	1	2	3	#4	#5	6	7	Maj ^{7#4#5} , MajΔ/b6
IV, IV ⁷	Mixolydian #11	1	2	3	#4	5	6	b7	Dom ^{7b5}
V, V ⁷	Mixolydian b6	1	2	3	4	5	b6	b7	Dom ^{7b6}
vi ⁰ , vi ^{7b5}	Locrian Nat.9	1	2	b3	4	b5	b6	b7	Min ^{9b6}
vii ⁰ , vii ^{7b5}	Altered Dominant	1	b2	b3	b4	b5	b6	b7	Dom ^{7b9,#9,b5,#5}

Harmonic Minor Modes

Scale Degree	Mode	Relation to Major Scale							Most Common Use
i, i ^{maj7}	Harmonic Minor	1	2	b3	4	5	b6	7	Min ^{maj7} , oΔ/b7
ii ^o , ii ^{7b5}	Locrian Nat.6	1	b2	b3	4	b5	6	b7	Min ^{7b5}
bIII ⁺ , bIII ^{+maj7}	Ionian Aug.	1	2	3	4	#5	6	7	Maj ^{7sus4,#5}
iv, iv ⁷	Dorian #4	1	2	b3	#4	5	6	b7	Min ^{7(#11)}
V, V ⁷	Phrygian Major	1	b2	3	4	5	b6	b7	Dom ^{7sus4,b9,#5}
Vi, Vi ^{maj7}	Lydian #9	1	#2	3	#4	5	6	7	Maj ^{7#9,#11} , MajΔ/b9
vii ^o , vii ^{o7}	Altered Dominant bb7	1	b2	b3	b4	b5	b6	bb7	Dim ^{o7}

Miscellaneous Scales

Scale	Relation to Major Scale									Most Common Use

Augmented	1	#2	3	5	#5	7		#2, 5, #5, 7

Scale Degree Names and Basic Progressions

Scale degree names are commonly used in traditional harmonic analysis. It would be a good idea to become familiar with these terms for future reference in this text.

Ex. 26

In C major

These scale degree terms apply to all seven note scales with leading tones. In scales containing lowered seventh degrees, the Leading Tone is replaced by the Subtonic.

Ex. 27

In C Aeolian

Basic Progressions

To better understand functional harmony, it should be divided into three basic subheadings from the terms above.

1. **Dominant Chords:** chords which contain the 5th and 7th degrees of the scale. V^7 , vii^{7b5} .

Ex. 28

Key of C $G^7 = V^7$ in C

1 2 3 4 5 6 7 1 2 3 4

Ex. 29

Key of C $B-7^{b5} = vii^{7b5}$ in C

1 2 3 4 5 6 7 1 2 3 4 5 6

Note: the 4th and 7th degrees are the least stable and therefore must be resolved.

2. **Pre-Dominant Chords:** chords which contain only 4th degree of the scale

Ex. 30

Key of C $F_{MA}^7 = IV_{MA}^7$ in C

1 2 3 4 5 6 7 1 2 3

Ex. 31

Key of C $D-7 = ii-7$ in C

1 2 3 4 5 6 7 1 2

3. **Tonic Chords:** chords which do not contain the 4th degree of the scale

Ex. 32

Key of C
C^{MA}7 = I^{MA}7 in C

1 2 3 4 5 6 7 1 2

Ex. 33

Key of C
E⁻7 = iii⁻7 in C

1 2 3 4 5 6 7 1 2

Ex. 34

Key of C
A⁻7 = vi⁻7 in C

1 2 3 4 5 6 7 1 2 3 4 5

Here is a clearer chart (major key).

Ex. 35

In traditional harmony, the strongest and most common cadence patterns move clockwise through each group.

Ex. 36

D-7 G7 CMA7
 ii7 V7 MA7
 (Pre Dom.) (Dom.) (Tonic)

Ex. 37

E-7 A-7 D-7 G7 CMA7
 iii7 vi7 ii7 V7 MA7
 (Tonic) (Tonic) (Pre Dom.) (Dom.) (Tonic)

In Ex. 35 there are two (or three if the progression is repeated) consecutive tonic chords. The particular sequence of chords within group should also be noted in Ex. 37 (I - iii - vi)

More About Roman Numeral Analysis

Roman Numerals are commonly used to describe chords within the diatonic chord systems. Here are definitions of the two elements used in Roman Numeral Analysis.

Exact Distance: Distinctions between basic triads are indicated by the following symbols:

Uppercase Roman Numerals for Major

Lowercase Roman Numerals for minor

(°) and lower case Roman Numerals for diminished

(+) and upper case Roman Numerals for Augmented

Seventh chords use these symbols:

(Maj7) or (MA7) for chords containing a major seventh interval above the root and

(min7) indicating a minor seventh or (b7) interval above the root.

Secondary Dominant and Diminished Seventh:

The terms Secondary Dominant and Secondary Diminished Seventh chords refer to chords outside the diatonic key which momentarily modulate to another key.

Secondary Dominant Chords:

Example 38 shows the Secondary Dominant chords from the key of C major.

Ex. 38

	I	ii	iii	IV	V	vi	vii°
Cmajor =	C	D-	E-	F	G	A-	B°
Sec. Dom.'s		A ⁷	B ⁷	C ⁷	D ⁷	E ⁷	
		$\frac{V^7}{ii}$	$\frac{V^7}{iii}$	$\frac{V^7}{IV}$	$\frac{V^7}{V}$	$\frac{V^7}{vi}$	

not a stable enough resolution chord to have a Sec. Dom.

Basically, the Secondary Dom.⁷ chord is the Dom.⁷ chord in the key of the bottom Roman Numeral.

Ex. 39

C_{maj}^7 A^7 $D-^7$ G^7

$I^{\text{maj}7}$ $\frac{V^7}{ii \text{ Bottom Roman Numeral}}$ ii V^7

A^7 is the V^7 chord in the key of D minor. So in reality, $D-^7$ functions dually as the i^7 chord in D minor and as the ii^7 in major

Secondary Diminished Seventh Chords

Secondary Diminished Seventh Chords are leading tone seventh chords from the key of the denominator.

Ex. 40

C_{maj}^7 $C\#^{o7}$ $D-^7$ $D\#^{o7}$ $E-^7$

$I^{\text{maj}7}$ $\frac{vii^{o7}}{ii}$ ii $\frac{vii^{o7}}{iii}$ iii

The Secondary Diminished Seventh chords in the key of C are:

Ex. 41

	I	ii	iii	IV	V	vi	vii^o
Cmajor =	C	D-	E-	F	G	A-	B^o
Sec. Dim ^{o7}		$C\#^{o7}$	$D\#^{o7}$	E^{o7}	$F\#^{o7}$	$G\#^{o7}$	
		$\frac{vii^{o7}}{ii}$	$\frac{vii^{o7}}{iii}$	$\frac{vii^{o7}}{VI}$	$\frac{vii^{o7}}{V}$	$\frac{vii^{o7}}{vi}$	

not a stable enough resolution chord to have a Sec. Dom.

Cycle of Fifth and Backcycling

The terms Cycle of Fifths and Backcycling are frequently mentioned in jazz theory. Here are the definitions and examples of each.

Cycle of Fifths

A progression that is most commonly associated with Dom7 chords (V7) whose roots move in descending fifths pattern.

Ex. 42

Back Cycling

Harmonic movement, usually from a minor key to the key center a fifth above.

Ex. 43

Back Cycles and the Cycle of Fifths are terms that are commonly used. Keep in mind, however, that both devices can be analyzed in other ways (secondary dominants).

Roman Numeral Analysis and Chord Scale Choice

I have included two common harmonic progressions for purposes of Roman Numeral Analysis and Chord Scale Choice. The key centers are circled. Capital letters are Major keys and subscript letters are minor keys.

Ex. 44a

Ex. 44a shows harmonic progressions in 4/4 time. The key centers are circled.

Progression 1: $\textcircled{\text{Ab}}$ F^{-7} Bb^{-7} Eb^7 $\text{Ab}^{\text{MA}7}$
 R.N. vi^7 ii^7 V^7 $\text{I}^{\text{MA}7}$
 C.S. F aeolian Bb dorian Eb mixolydian Ab ionian

Progression 2: $\text{Db}^{\text{MA}7}$ $\textcircled{\text{C}}$ D^{-7} G^7 $\text{C}^{\text{MA}7}$ $\text{F}^{\text{alt.}}$
 $\text{IV}^{\text{MA}7}$ ii^7 V^7 $\text{I}^{\text{MA}7}$ V^7
 Db lydian D dorian G mixo. C ionian

Progression 3: $\textcircled{\text{Eb}}$ C^{-7} F^{-7} Bb^7 $\text{Eb}^{\text{MA}7}$
 vi^7 ii^7 V^7 $\text{I}^{\text{MA}7}$
 C aeolian F dorian Bb mixolydian Eb ionian

Progression 4: $\text{Ab}^{\text{MA}7}$ $\textcircled{\text{G}}$ A^{-7} D^7 $\text{G}^{\text{MA}7}$ B^{-7} $\text{E}^7 \text{alt.}$

Progression 9: Bb^{-7} Eb^7 $\text{Ab}^{\text{MA}7}$ $\textcircled{\text{f}}$ $\text{G}^{-7\text{b}5}$ $\text{C}^{\text{alt.}}$
 ii^7 V^7 $\text{I}^{\text{MA}7}$ $\text{ii}^7\text{b}5$ $\text{V}^7 \text{alt.}$
 Bb dorian Eb mixolydian Ab ionian G loc. C phry. major

Ex. 44b

Ex. 44b is a series of eight musical staves, each containing four measures of music. The staves are labeled with Roman numerals (i, ii, iii, iv, v, vi, vii, viii) and chord symbols (E-7b5, A7alt, C-7, F7, F-7, Bb7, EbMA7, Ab7, BbMA7, A-7, D7, G-7, C7, A-7b5, D7alt, G7#5, C-7, Ab7, BbMA7, E-7b5, A7alt, D-7b5, G7alt, C-7(b5), E7alt, BbMA7). The staves are arranged in a grid-like fashion, with each staff containing four measures of music. The first staff is labeled 'd' and the last staff is labeled 'Bb'. The staves are arranged in a grid-like fashion, with each staff containing four measures of music. The first staff is labeled 'd' and the last staff is labeled 'Bb'.

Staff 1: **d** E-7^{b5} A7^{alt} **Bb** C-7 F7
 ii^{7b5} V⁷ ii⁷ V⁷
 The scales you will provide

Staff 2: **Eb** F-7 Bb7 Eb^{MA}7 **Bb** Ab7
 ii⁷ V⁷ I^{MA}7 bII⁷ Tritone-sub.
 vi

Staff 3: Bb^{MA}7 **d** E-7^{b5} A7^{alt} D-7 **Ab** Bb-7 Eb7
 I^{MA}7 (sub. for vi) ii^{7b5} V⁷ i⁷ ii⁷ V⁷

Staff 4: **F** A-7 D7 G-7 C7 **g** A-7^{b5} D7^{alt}
 iii⁷ V⁷ ii⁷ V⁷ ii^{7b5} V⁷

Staff 5: **c** G7^{#5} C-7
 V⁷ i⁷

Staff 6: **Bb** Ab7 Bb^{MA}7
 bII⁷ I^{MA}7
 vi

Staff 7: **d** E-7^{b5} A7^{alt} **c** D-7^{b5} G7^{alt}
 ii^{7b5} V⁷ ii^{7b5} V⁷

Staff 8: **Bb** C-7(b5) E7^{alt} Bb^{MA}7
 ii^{7(b5)} V⁷ I^{MA}7

You may have noticed the Ab⁷ as being bII. The reason for this is because it (Ab⁷) is a tritone substitute (to be explained later, so don't panic) for D⁷ which is $\frac{V^7}{vi}$ in Bb Major. bII⁷ chords are interchangeable for V⁷ chords when resolving to their respective Tonic Major or Minor Chords (we will discuss this later in the book).

Basic Rules for Chord Substitutions

Following is a list of some basic rules for chord substitutions. The subsequent chapters contain additional rules to accommodate the flow of new material.

All chord substitutions may be broken down into three categories.

1. The bass note stays the same and the chord quality changes.

Ex. 45

$$F^{\text{maj}7} \longrightarrow F^7$$

2. The bass note changes but the chord quality stays the same.

Ex. 46

$$F^{7/\#5/b9/b5} \longrightarrow B^9$$

3. Complete chord replacement.

Ex. 47

$$B^{\text{maj}7} \longrightarrow G^{\text{maj}7}$$

Rule I:

For basic chords, any modal extension may be added.

Ex. 48

1. $G^{-7} \text{ (dor.)} = G^{-9} \longrightarrow G^{-11} \longrightarrow G^{-13}$
2. $D^7 \text{ (mix.)} = D^9 \longrightarrow D^{11} \longrightarrow D^{13}$
3. $Bb^{\text{maj}7} \text{ (lyd.)} = Bb^{\text{maj}9} \longrightarrow Bb^{\text{maj}7\#11} \longrightarrow Bb^{\text{maj}13}$

Any of these groups may also combine extensions such as $\longrightarrow G^{-9/11/13}$.

Rule II: Major Chords

Substitute Major chords own mediant or submediant chord.

Ex. 49

$A^{\text{maj}7}$	sub.	$C\#^{-7} \text{ (mediant)}$	$C\#^{-7}$	$= A^{\text{maj}9}$
		$F\#^{-7} \text{ (submediant)}$	$F\#^{-7}$	$= A^6$

Rule III: Minor Chords

Substitute Relative Major or Dominant Minor

Ex. 50

D- ⁷	sub.	F ^{maj7} (relative major)	F ^{maj7}	= D- ⁹
		A- ⁷ (dom. Minor)	A- ⁷	= D- ^{9/11}

Rule IV: Dom.⁷ Chords (V⁷)

Substitute Dom. minor for Dom. major (must return to Dom. major). This is also called "twoing the five" because you are putting the ii⁷ chord before the V⁷. This is one of the most common substitutions found in Jazz (Bebop).

Ex. 51

orig. 

sub 

Also reverse works:

Ex. 52

orig. 

sub 

or 

or 

or 

Rule V: All Chords

Substitute any chord which has a root a tritone away from the original chord.

Ex. 53

orig. 

sub 

or 

or 

Or combine any lines but do not substitute for tonic chord (not yet!).

Rule VI: Dom⁷ Chords (V⁷)

Substitute maj^{7b5} or maj^{7#5} built on the subtonic (bvii) of the Dom. chord.

Ex. 54

orig. 

sub 1 

sub 2 

Both should be voiced in higher registers.

Rule VII: Dom⁷ Chords (V⁷)

Substitute min^{7b5} chord built on the mediant of the Dom⁷ chord.

Ex. 55

orig.  **F⁷**

sub  **A-7^{b5} = F⁹**

(Chord should also be voiced in a higher register)

Rule VIII: Dom⁷ Chords (V⁷)

Substitute Dim⁷ chord built on bII of the Dom⁷ chord.

Ex. 56

orig.  **G⁷**

sub  **A^{b°7} = G^{7b9}**

Also the other 3 symmetric dim⁷ chords and their extensions

Ex. 57

G^{7b9} = A^{b°7}, B^{°7}, D^{°7}, F^{°7}

Extensions of Dim7 Chords

Ex. 58

A^{b°7} (Tonic Diminished scale)

 MA9 (Cb) 11 (Ebb) b13 MA7

Ab^{°7} chord

Ex. 59

Ab^{o7}

1 b3 b5 bb7 MA7 MA9 11 b13

Extensions of Dim⁷ chord.
(happens to be a Dim chord itself)

Rule IX:

V⁷ chords may replace minors (secondary dominants) to set up a stronger harmonic cadence (tonicization).

Ex. 60

orig. I^{maj7} vi⁷ ii⁷ V⁷

sub I^{maj7} A⁷ D-7 G⁷

I^{maj7} V⁷ ii⁷ V⁷

ii

Rule X: Dom⁷ (V⁷) chords

Altered (#9, b9, #5, b5) Dom⁷ chords may follow unaltered chords when resolving to their tonic. The reverse is not true. When moving towards the tonic, you need to go from less tension to more tension.

Ex. 61

orig. A⁷ A⁷#5#9 D_{MA}⁷

incorrect

no A⁷#5#9 A⁷ D_{MA}⁷

Rule XI: Dom7 (V7) Chords

Altered Dom7 chords can be used (even if not indicated) when the root of the chord is:

- | | | |
|--|--------------------|--------------------------|
| 1. a 4 th higher (5 th lower): | A ^{7 alt} | D ^{major7} |
| 2. ½ step lower | A ^{7 alt} | A ^{b major7} |
| 3. a minor type with the same root | A ^{7 alt} | A ⁻⁷ |
| 4. ½ step higher | A ^{7 alt} | B ^{b major7} In |

all other instances use Mixolydian or Mixolydian #11 scales.

Rule XII:

- A) When a Maj or Min chord is followed by a Maj, Min or Dom⁷ chord whose root is a 4th higher, you may insert a Dom⁷ of the same root for half the duration.

Ex. 62

orig. 

sub. 

You may also insert the ii⁷ chord of the V⁷ sub

Ex. 63

orig. 

sub 

B) You may also insert a Dom⁷ chord a tritone away for the same duration.

Ex. 64

orig. 

sub 

or 

Rule XIII

A min⁶ chord cannot be substituted for a min⁷ (ii-function) unless an altered Dom⁷ follows, thus increasing the harmonic tension of the progression.

Ex. 65

wrong 

O.K. 

Or in combination with tritone substitution

Ex. 66

Rule XIV:

Min^{7b5} chords may be inserted before Dom⁷ (V⁷) chords in major or minor keys.

Ex. 67a

orig. 

sub 

or

Ex. 67b

orig. 

sub 

Rule XV:

Dom¹¹ (V⁷) chords can function as dom⁷'s or min⁷'s (dorian/aeolian)

Ex. 68

 Key of E

 Key of A

 Key of b (Aeolian Function)

Rule XVI:

A $\text{bII}^{7\text{b}5}$ substitution for $\text{V}^{7\text{alt}}$ works because they both share the same scale.

Ex. 69

Two musical staves in treble clef. The first staff shows a sequence of chords: D-7, G7#5#9, and CMA7. Below the staff, it says "G altered scale = Ab melodic minor". The second staff shows a sequence of chords: D-7, Db7b5, and CMA7. Below the staff, it says "Db mixo. #11 scale = Ab melodic minor".

Rule XVII:

Secondary Dom⁷ and Dim⁷ chords may be inserted before their respective resolution chords.

Three musical staves in treble clef. The first staff is labeled "Ex. 70 orig." and shows the sequence: CMA7, D-7, E-7, FMA7. The second staff is labeled "sub." and shows: CMA7, A7, D-7, B7, E-7, FMA7. The third staff is labeled "or" and shows: CMA7, C#o7, D-7, D#o7, E-7, FMA7.

Rule XVIII:

It is common to insert two diatonic chords separated by a secondary dim⁷ chord in places of little harmonic motion.

Ex. 71

Two musical staves in treble clef. The first staff is labeled "orig." and shows: CMA7, followed by three placeholder chords marked with a slash and a dot (/:). The second staff is labeled "sub." and shows: CMA7, D-7, D#o7, E-7. Below the staff, Roman numerals are provided: I^{maj7} under CMA7, ii⁷ under D-7, $\frac{\text{Vii}^{\text{o}7}}{\text{iii}}$ under D#o7, and iii⁷ under E-7.

Rule XIX:

Maj^{7#5} and Maj^{7b5} chords can be subbed for any other chords from the same melodic minor scale.

Ex. 72 Eb^{maj7#5} for C^{-maj7} (3, 5, 7, 9) of C^{-maj7}
Eb^{maj7b5} for F¹³ (b7, 9, 3, 13) of F¹³

Rule XX: Symetrical Scales

- A) Diminished chords repeat every min3rd (4 frets) interval. Therefore, any of the four in the cycle may be substituted for another.
- B) Augmented Chords repeat every maj3rd (5 frets) interval, so the same rule applies.

Rule XXI: Dom⁷ Chords (V⁷)

Dom⁷ chords can be moved in min3rd cycles to intersect at cadence points.

Ex. 73

orig. 

sub. 1 

sub. 2 

sub. 3 

sub. 4 

Rule XXII: Modal Chords

Modal Chords can be interchanged (Modal Mixture) as long as the basic integrity of the chord remains intact.

Ex. 74

G ^{maj7} (Ionian) orig.	G ^{maj7/6/9}
G ^{maj7} (Lydian) sub.	G ^{maj7/#11}
Bb ⁻⁷ (Dorian) orig.	Bb ^{-6/9}
Bb ⁻⁷ (Aeolian) sub.	Bb ^{-7/b6}

Rule XXIII:

The cycle of 5th's (descending) may be inserted for any length in a progression as long as the intersecting chord has either a V⁷ or a bII⁷ relationship to the resolution chord.

Ex. 75

orig. 

sub. 1 

sub. 2 

Rule XXIV

Bitonal chords from the Dominant Diminished scale can be subbed for one another.

Ex. 76

$G^{13/b9}$

MajΔ Bass	sub	①	$\frac{G}{Ab}$	$\frac{Bb}{B}$	$\frac{Db}{D}$	$\frac{E}{F}$
		②	$\frac{Db}{G}$	$\frac{E}{Bb}$	$\frac{G}{Db}$	$\frac{Bb}{E}$
		③	$\frac{E}{G}$	$\frac{G}{Bb}$	$\frac{Bb}{Db}$	$\frac{Db}{Eb}$
		④	$\frac{Bb}{G}$	$\frac{Db}{Bb}$	$\frac{E}{Db}$	$\frac{G}{E}$

MinΔ Bass	sub	①	$\frac{G-}{Ab}$	$\frac{Bb-}{B}$	$\frac{Db-}{D}$	$\frac{E-}{F}$
		②	$\frac{Db-}{G}$	$\frac{E-}{Bb}$	$\frac{G-}{Db}$	$\frac{Bb-}{E}$
		③	$\frac{E-}{G}$	$\frac{G-}{Bb}$	$\frac{Bb-}{Db}$	$\frac{Db-}{Eb}$
		④	$\frac{Bb-}{G}$	$\frac{Db-}{Bb}$	$\frac{E-}{Db}$	$\frac{G-}{E}$

Rule XXV:

- A) When in a min ii^{7b5} V⁷ i⁷ progression, an altered Dom7 chord must be used.
- B) All secondary Dom⁷ (V⁷) chords resolving to minor must have an altered V⁷ chord

Ex. 77

$\frac{V^7}{ii}$

ii⁷ V⁷

The musical notation shows a progression on a single staff: Bbmaj7, G7#5, C-7, F7. Above the staff, the functional harmony is indicated as ii⁷ (Bbmaj7), V⁷ (G7#5), ii⁷ (C-7), and V⁷ (F7). An arrow points from the text below to the G7#5 chord.

must be altered in some way
because it's resolving to C⁻⁷

Rule XXVI:

Any chord can be replaced by another chord from its family.

Ex. 78

orig. 

sub. 

scale: F mel. min Ab mel. min C ionian

Rule XXVII

Dim⁷ chords that resolve to min⁷ chords one ½ step above can be replaced with a ii^{7b5} V^{7alt} progression from the key of the min⁷ chord.

Ex. 79

orig. 

sub. 

Rule XXVIII:

Any chord whose chord scale contains the melody notes of a particular measure can be substituted.

Ex. 80

Triads Over Bass Notes

Triads over bass notes are used extensively in contemporary jazz and classical music. The triad can be of any quality (maj, min, dim, aug, sus, lyd or loc) and inversion.

Ex. 82a

Diagram showing a G triad (G, A, B) over a bass note of F#.

Labels: G Triad, F# Bass Note

Ex. 82b

Diagram showing an A- triad (A, G#, F) in 1st inversion (G#, A, F) over a bass note of G#.

Labels: A- Triad 1st inversion, G# Bass Note

The seventh chord over a bass note looks like

this: **Ex. 83**

Diagram showing a BbMA7b5 chord (Bb, A, G, F) over a bass note of A.

Labels: BbMA7b5, A Bass Note

The seventh chord may be in any inversion as well.

The polychord differs from the triad over bass note by the presence of a triad or seventh chord on both the top and bottom.

Ex. 84a

Ex. 84b

To indicate the presence of a triad, a Δ (triad) symbol should be used.

Seventh chords over triads or other seventh chords are impossible to sound simultaneously on the guitar because of the six string limit (on most guitars).

In some instances their effect can be achieved with a triad over triad or seventh chord over bass note.

Ex. 85

The G of the E min chord dually functions as the third of Emin and the b7 of A-7.

Many times the root and fifth are sufficient in giving the sound of the bottom triad.

Ex. 86

Triads and Seventh Chords Over Bass Notes and Polychords

Key of C: C triads over C bass notes not included, because they are simply triads. The last row of generic chord names will help you when encountering these same relationships in other keys.

Ex. 87

$$\frac{E}{C} = \frac{\text{Maj}\Delta}{b6} \text{ (min6 above E)}$$

What we have is a major triad with its b6 in the bass. The b6 is in relation to the note E (above it). The interval on the bottom will always be that interval above the tonic of the triad (E in this case).

Now that you are thoroughly confused, let's look at it in a few more keys.

Ex. 88

$$\frac{E}{C} = \frac{\text{Maj}\Delta}{b6} \text{ Maj triad over its b6 in bass}$$

$$\frac{D}{Bb} = \frac{A}{F} = \frac{F\#}{D} = \frac{\text{Maj}\Delta}{b6}$$

These also all happen to be Maj^{7#5} chords as we can see.

Ex. 89

$$\frac{E}{C} = \frac{E, G\#, B}{C} = \begin{matrix} C & E & G\# & E \\ 1 & 3 & \#5 & 7 \end{matrix} = C^{\text{maj}7\#5}$$

In many cases I have indicated a mode name in the Chord Type column. The chord example is named in two ways:

$$\frac{Db}{C} \text{ for}$$

1. as a Db^{maj7} chord with C in the bass
2. as a C phrygian chord

Although I personally believe that all chords should be named in relation to their bass note (in the case of $\frac{Db}{C}$ it is a type of a C chord, not a Db^{maj7} chord in inversion) the other approach should also be recognized. The scales in the chord scale section are related to the bass note.

Ex. 90

$$\frac{Db}{C} = \begin{matrix} C \text{ phrygian} \\ C \text{ phrygian major} \end{matrix}$$

Reharmonization and Chord Substitutions

Before going into some actual reharmonizations, let's briefly discuss a few traditional substitute patterns.

Throughout the course of Jazz history, certain compositions have produced a variety of harmonic substitute patterns. Works such as "Giant Steps", "Countdown", "Ladybird" and "Blues for Alice" are all tunes which contain such harmonic substitutes.

The terms "Countdown Changes" or "Bird Blues" are examples of Jazz lingo referring to specific substitute patterns in today's jazz scene. Let's examine some traditional substitute patterns.

"Countdown Changes"

The tune "Countdown" by John Coltrane was first released on the album "Giant Steps" in 1959 on Atlantic SD-1311.

"Countdown" is based on the harmonic progression of a Miles Davis composition entitled "Tune Up". The basic principle of chord substitution is as follows:

Ex. 91

The example shows two musical staves. The first staff, labeled "Tune Up", contains three measures of music with chords $D-7$, $G7$, and $C_{MA}7$ written above. Above these chords are the Roman numerals ii^7 , V^7 , and I^{maj7} respectively. The second staff, labeled "Countdown", contains seven measures of music with chords $D-7$, $E\flat7$, $A\flat_{MA}7$, $B7$, $E_{MA}7$, $G7$, and $C_{MA}7$ written above. Below the "Countdown" staff is a line of Roman numerals: ii^7 , $bIII^7$, bVI^{maj7} , VII^7 , III^{maj7} , V^7 , and I^{maj7} . Above the first four numerals is the word "Depart" with a right-pointing arrow, and above the last three is the word "Return".

This Progression may be inserted in any tune with a four bar $ii-V^7-I^{maj7}$ progression regardless of what the rhythm section is playing under it.

"Bird Blues"

A "Bird Blues" is a chord progression derived from the tune "Blues for Alice" by Charlie Parker. It is based on a twelve bar blues and uses a series of ii-V substitution.

Advanced Reharmonizations

To demonstrate advanced reharmonizations, I have tried to incorporate as many substitution rules as possible.

Additional rules will be presented throughout this section in order to address the new harmonic situations encountered. The type of tunes used for reharmonization fall into the categories of Blues, Rhythm Changes and two "Standard" Jazz forms. Because of the high concentration of Blues-form tunes, I will begin with more of its variations.

Blues

F Blues Basic

Substitution Characteristics

F Blues ①

1. Basic Bebop Blues

- B°7 in bar 2 is $\frac{vii^{o7}}{ii}$ going to the ii⁷ chord (c-7) in next measure. Rule XVII
- B°7 in bar 5 is actually an F°7 resolving to $\frac{F^7}{C}$. This is a common delayed resolution technique and is used many times in ii – V⁷ – I^{maj7} for the first 2 beats (or bars) of the I^{maj7} chord as demonstrated in this example.

Ex. 93

F Blues ②

2. The second Blues is still a Bebop type blues with a few modifications.

- F#-7 to B7 in bar 3 is a tritone substitution in the key of Bb with its ii7 chord in front of it.

Rule XII part2

- Bb-7 to Eb7 in bar 6 is actually an Eb7 to F7 resolution with the supertonic chord (Bb-7) in front of the dominant. This brings up a new rule.

Rule XXX: Dom7 chords

Dom7 chords that resolve to Dom7 or Maj7 chord a whole step above.

Ex. 94a

	F mixolydian = Bb maj
Eb mix#11 = Bb melodic min	F ionian =
A alt. dom = Bb melodic min	D aeolian = } F maj
	D phrygian = Bb maj

Ex. 94b

Five musical staves showing chord progressions in treble clef. Each staff has two measures. The chords are: 1. A^7_{alt} to Bb_{MA}^7 ; 2. $Eb^7(b5)$ to Bb_{MA}^7 ; 3. A^7_{alt} to F_{MA}^7 or F^7 ; 4. Eb^7 to $A-^7$; 5. A^7_{alt} to $A-^7$.

The main reason that these progressions work is because of the strong resolution tendencies of the Db, Bb and Eb ($b7^{th}$, 5^{th} and root) of the Eb^7

Ex. 95a

Musical staff for Ex. 95a showing a progression from Eb^7 to F^{maj7} to (F^7) . Fingerings are indicated: Eb^7 (b7, 5, 1), F^{maj7} (5, 3, 6), and (F^7) (7).

Ex. 95b

Musical staff for Ex. 95b showing a progression from Eb^7 to Bb^{maj7} . Fingerings are indicated: Eb^7 (b7, 5, 1) and Bb^{maj7} (9, 7, 3).

Ex. 95c

Musical staff for Ex. 95c showing a progression from Eb^7 to $A-^7$. The text "or the 9^{th} of Eb^7 to 5^{th} of $A-^7$ " is written above. Fingerings are indicated: Eb^7 (9, b7, 5, R) and $A-^7$ (5, 3, 11, 9).

F Blues ③

First staff: $F\sharp 7$ $B 7$ | $E 7$ $A 7$ | $D 7$ $G 7$ | $C 7$ $F 7$

Second staff: $B\flat 7$ | $E 7_{alt}$ | $F 7$ | $A-7\flat 5$ $D 7_{alt}$

Third staff: $G-7$ | $C 7$ | $A 7_{alt}$ $D 7_{alt}$ | $G 7_{alt}$ $C 7_{alt}$

3. The third Blues begins on the biI^7 chord employing a cycle of 5th substitution (Rule XXIII) and is intersecting with the $B\flat 7$ chord in bar 5.

- $E 7_{alt}$ is used in bar 6 as a tritone substitution for $B\flat 7(b5)$

- the turnaround $A 7_{alt}$ $D 7_{alt}$ $G 7_{alt}$ $C 7_{alt}$ is a III^7 VI^7 II^7 V^7 Dom^7 cycle substitution for the usual I^7 VI^7 ii^7 V^7 progression.

Rule XXXI

Dom^7 chords can replace either major or minors.

Ex. 96

First staff: $C_{maj} 7$ $A 7$ | $D-7$ $G 7$ ||

Second staff: $C 7$ $A 7$ | $D 7$ $G 7$ ||

Below first staff: I^{maj7} VI^7 ii^7 V^7

Below second staff: I^7 VI^7 II^7 V^7

Rule XXXI cont.

Ex. 97

Line 1: C_{maj}^7 A^-7 D^-7 G^7

Line 2: E^-7 A^7 D^-7 G^7

Line 3: E^7_{alt} A^7_{alt} D^7_{alt} G^7_{alt}

Chord progressions shown below the staves:

Line 1: I^{maj7} vi^7 ii^7 V^7

Line 2: iii^7 VI^7 ii^7 V^7

Line 3: III^7 VI^7 II^7 V^7

Arrows indicate transformations: $I^{maj7} \rightarrow iii^7$, $vi^7 \rightarrow VI^7$, $ii^7 \rightarrow II^7$, and $V^7 \rightarrow V^7$.

F Blues ④

Line 1: F_{maj}^7 E^-7b5 A^7_{alt} D^-7 G^7 C^-7 F^7

Line 2: Bb^7 Bb^-7 Eb^7 A^-7 D^7 Ab^-7 Db^7

Line 3: G^-7 C^7 F^7 Db^7 Ab^7 Eb^7

4. Blues #4 is commonly called a "Parker (Bird) Blues" or "Altered Blues" as we discussed earlier.

The following turnaround is common in modern jazz.

Ex. 98

Line 1: F^7 Db^7 Ab^7 Eb^7

Chord progressions shown below the staff:

I^7 bVI^7 $bIII^7$ $bVII^7$

Any or all of the chords may be made maj^7 if desired.

F Blues ⑤

4/4 F7 Eb7 D-7^{b5} G7^{alt} C-7 Eb7 Ab_{MA}7 B7

Bb7 Eb7 A-7 D7 Bb-7 Eb7^{alt}

Ab-7 Db7 F/C Db/C Ab^{sus4}/C C7^{alt}

5. Blues #5 uses some interesting devices beginning with the cadence:

Ex. 99

F7 Eb7 D-7^{b5} G7^{alt} C-7

At first it looks deceiving but at a closer glance it makes more sense. The Eb⁷ chord in bar one acts as a bII⁷ tritone substitute to D-^{7b5} (which is actually a substitute for Bb⁷⁽⁹⁾ in bar [Rule VII]).

The D-^{7b5} moves to G^{7alt} and then to C-⁷, a substitute for F⁷ (Rule IV). The next substitute is based on John Coltrane's "Countdown Substitutions" discussed earlier.

Ex. 100

C-7 Eb7 Ab_{MA}7 B7 Bb7

m3 Resolve m3 T.T. Sub. Resolve

Ex. 101

F/C Db/C Ab^{sus4}/C C7^{alt}

This turnaround is a dominant pedal point that works on a modal modulation principle.

F Blues ⑥

6. Blues #6 uses a tonic pedal (bars 1-7) as well as a dominant pedal for the turnaround

Ex. 102

You should play through every progression to gain an aural familiarity of each. The smart musician will learn how to combine the progressions in different ways. In addition he / she will create new reharmonizations based on the rules previously stated. Remember, all of the measures between different progressions are interchangeable, provided the bassline and voice leading are logical.

Rhythm Changes

Rhythm Changes is a term coined for the chord progression of George Gershwin's "I Got Rhythm". The progression has provided a basis for many standard Bebop tunes. The most common harmonization of Rhythm Changes is:

Ex. 103

A

A

B

A

As you probably have noticed, the I^{maj7} VI⁷ ii⁷ V⁷ and iii VI⁷ ii⁷ V⁷ progressions comprise a large portion of this harmonic progression. That is why this progression is commonly referred to as a "Turnaround" progression. Here are some examples of substitute turnarounds which may be employed in the first four bars of any A section in Rhythm Changes.

Ex. 104

original	Bb_{MA}^7	G^7	$C-^7$	F^7	Bb_{MA}^7	($D-^7$)
①	Bb_{MA}^7	B^{o7}	$C-^7$	$C\#^{o7}$	Bb_{MA}^7	($D-^7$)
②	$D-^7$	G^7	$C-^7$	F^7	Bb_{MA}^7	($D-^7$)
③	Bb_{MA}^7	$D\flat^7$	$G\flat^7$	B^7	Bb_{MA}^7	($D-^7$)
④	Bb_{MA}^7	$G\flat^7$	$D\flat^7$	$E\flat^7$	Bb_{MA}^7	($D-^7$)
⑤	Bb_{MA}^7	$G\flat^7$	$D\flat^7$	$A\flat^7$	Bb_{MA}^7	($D-^7$)
⑥	D^7_{alt}	G^7_{alt}	C^7_{alt}	F^7_{alt}	Bb_{MA}^7	($D-^7$)

⑳	$B\flat/F$	G/F	A/F	E/F	$B\flat/F$	

Rule XXXII

When creating triad over bass note substitutes, pay particular attention to the movement and voiceleading of the upper triads. They should move in the strongest direction of resolution as if there were no bass note below.

Ex. 105

B $\flat$ /F D $\flat$ /F G $\flat$ /F B/F

m3 V I(V) I(V)

Db → Gb = V I
Gb → B = V I
strong cadence of upper triads

You should also keep in mind the relationship of the bass note to the chords and how they move in terms of cadential direction.

Ex. 106a

B $\flat$ C $\sharp$ /G A/C B/F

B $\flat$ G $\frac{7}{b5/b9}$ C $\frac{13}{b9}$ F $\frac{7}{b5/b9}$

I VI 7 II 7 V 7

Ex. 106b

B $\flat$ /F D $\flat$ /F G $\flat$ /F B/F

B $\flat$ D $\flat$ ^{1st inver.} G $\flat$ ^{maj7} F $\frac{7}{b5/b9}$

I bIV bVI V 7

The Bridge of Rhythm Changes

The Bridge of Rhythm Changes uses a simple four chord cycle pattern over eight measures.

Ex. 107

Since there are many approaches to this progression, I have isolated a few of the most common.

The ii⁷ V⁷ approach

Ex. 108a

also

Ex. 108b

You may use any combination of ii⁷ V⁷ as long as the V⁷ chord is returned to (Rule IV)

Next is an example which uses altered Dom⁷ chords.

Ex. 109

Staff 1: $D7_{alt}$ | --- | $G7$ | $D-7$ | $G7_{alt}$

Staff 2: $C7(b5)$ | $G-7$ | $C7_{alt}$ | $F7(b5)$ | $F7_{alt}(\#5/\#9)$

Using Tritone Substitutions

Ex. 110

Staff 1: $A-7$ | $D7$ | $A\flat-7$ | $D\flat7$

Staff 2: $G-7$ | $C7$ | $F\sharp-7$ | $B7$

Using the Cycle

Ex. 111

starts in same place

Staff 1: $D7$ | $G7$ | $C7$ | $F7$ | $B\flat7$ | $E\flat7$ | $A\flat7$ | $D\flat7$

Staff 2: $G\flat7$ | $B7$ | $E7$ | $A7$ | $D7$ | $G7$ | $C7$ | $F7$

tritone away from C

finishes in correct spot

Any of these chords will also work.

Ex. 112

Chords	Mixolydian	Mixolydian #11	Altered Dominant
	D^7	D^{7b5}	$D^{7/\#5/b5/\#9/b9}$
	$F\sharp-^{7b5}$	$A-^{maj7}$	$E\flat-^{maj7}$
	$A-^7$	$B-^{13b9}$	$F-^{13b9}$
	C^{maj7}	$C^{maj7\#5}$	$G\flat^{maj7\#5}$
		E^{7b6}	$A\flat^{7b5}$
		$F\sharp-^{9b5}$	$B\flat^{7b6}$
		$G\sharp^{7alt}$	$C-^{9b5}$

Ex. 113

<u>G⁷</u>	<u>G^{7b5}</u>	<u>G^{7/#5/b5/#9/b9}</u>
B ^{-7b5}	D ^{-maj7}	Ab ^{-maj7}
D ⁻⁷	E ^{-13b9}	Bb ^{-13b9}
F ^{maj7}	F ^{maj7#5}	Cb ^{maj7#5}
	A ^{7b6}	Db ^{7b5}
	B ^{-9b5}	Eb ^{7b6}
	C ^{#7alt}	F ^{-9b5}

It's your job to figure out the substitute changes from the modal scales of both C⁷ and F⁷.

Using Triads Over Bass Notes

Ex. 114

Ex. 114 shows two staves of musical notation, each with four measures. The first staff contains the following triads over bass notes: Ab/D, Bb^{sus4}/D, E/G, and A^{add9}/G. The second staff contains: F[#]/C, Ab^{sus4}/C, C^{M7}/F, and F^{#sus4/3}.

Common Tone Reharmonization

Rule XXXII

Any melody note may be retained as a common tone (in any voice) for the purpose of reharmonization.

To demonstrate this, I have compiled a short list of possible harmonizations of the note C. Remember the note C may be in any voice.

Ex. 115

Remember, this is just a list of easily nameable chord voicings.

As you can see, it is mind-boggling how many there are. Try to experiment voicing each one of these chords with the note C on top. This will give you a greater understanding of voice leading and increase your chord vocabulary tenfold.

Modal Harmony and Theory

I would like to begin this section on modal harmony and theory by recapping some points already covered.

1. In theory, any combination of modal tones over its tonic produces a modal voicing.

Ex. 116

a.  = G dorian

b.  = C alt. dom.

2. The construction of a modal voicing is dependent on the presence of two factors:
 - a) A clear definition of the chord's quality (maj, min, etc.) including the seventh if desired.
 - b) Emphasis of one or more distinguishing chord tones.

Ex. 117

b6 = modal disclaimer

quality min7

modal tonic

3. For comping purposes voicing families should be learned horizontally on the fingerboard.

Ex. 118

Each note of the voicing moves up the scale diatonically.

4. Labeling chords by mode is helpful to the improviser in that it provides the appropriate scale choice and a more descriptive harmonic interpretation.

Ex. 119

Sharp and Flat Direction Modal Modulation

Sharp and flat direction modal modulations, also known as upwards (sharp) and downwards (flat), occur when moving directly from one modal center to another. It can be better understood by using this chart:

Modal modulations can be used in place of more common modulation devices such as secondary Dom⁷, secondary Dim⁷ or chromatic mediant modulations.

Ex. 120

Sharp direction / upward modulation:

Moving modal center around the circle or adding sharps to naturals.

Flat direction / downward modulation:

Moving modal center counterclockwise or adding flats to naturals.

Upward Modulation

Ex. 121a

$B^b/A = A$ Phrygian

$G_{sus}^4/E = E$ Aeolian

Musical notation for Ex. 121a. The treble clef shows two chords: (Fmaj) and (Gmaj). An arrow labeled "upward" points from the first chord to the second. The bass clef shows two chords: F and G. A bracket connects the two chords in the bass clef.

Ex. 121b

$GQ/A = A$ Aeolian

$D_{lyd} \Delta = D$ Lydian

Musical notation for Ex. 121b. The treble clef shows two chords: (Cmaj) and (Amaj). An arrow labeled "upward" points from the first chord to the second. The bass clef shows two chords: C and A. A bracket connects the two chords in the bass clef.

Modulating from A Phrygian to E Aeolian (2 keys in a sharp direction) we can generate many more harmonic resolutions between the parent groups.

Ex. 122

Also any combination of left to right movement as indicated from A Phrygian.

Downward Modulations

Ex. 123a

EQ/F# = F# Aeolian **Clyd^{add9}** = C Lydian

downward

Ex. 123b

A-13 = A Dorian **E^b/D** = D Phrygian

downward

Before we go on, I want to remind you that these resolution tendencies are dependent on clear modal voicings.

Modal modulation between melodic minor scales tends to be more ambiguous than the major. This is caused by its inherent interval properties, chiefly the pair of tritones.

Ex. 124

C melodic minor

Sharp Direction (Melodic Minor)

Ex. 125

①
F mel. min. → C mel. min.
1 key in a sharp direction

Flat Direction (Melodic Minor)

Ex. 126

Sharp Direction (Harmonic Minor)

B phry. maj.

Musical notation showing the upward movement of a triad. The first triad is labeled "(E harm. min.)" and consists of the notes E, G, and B. The second triad is labeled "(C# harm. min.)" and consists of the notes C#, E, and G. An arrow labeled "upward" points from the first triad to the second, indicating the direction of movement.

A lyd. #9

The image shows a musical staff with a treble clef and a key signature of two sharps (F# and C#). The scale is labeled "(Db harm. min.)". The notes are: D4 (quarter), E4 (quarter), F#4 (quarter), G4 (quarter), A4 (quarter), B4 (quarter), C#5 (quarter), and D5 (quarter). An arrow labeled "downward" points from the G4 note to the F#4 note, indicating a chromatic descent.

Resolution Tendencies Between Modal Groups

Resolution tendencies between modal groups (major to melodic minor for example) do not fit into a standard formula. They are related to voice leading rather than the internal structure of the two parent scales. Try these on the piano.

Ex. 129

(a.) (b.) (c.)

B phry. maj. E loc. D alt. dom. G ael. A lyd. #9 D loc.

(d.) (e.) (f.)

C# phry. maj. B dor. A ion. aug. G# loc. F# mel. min. E mix.

Voice Leading

Voice leading is the interval movement of like voices between two chords. Good voice leading involves either common tone or stepwise motion of the voices while following natural resolution tendencies.

Ex. 130

Smooth voice leading is difficult to achieve on the guitar because of the large number of left hand chord forms involved.

Resolution

The term resolution implies a change from one chord to another. Half step resolution should be used whenever possible. Here is a chart of V^7 to I^{maj7} resolutions.

Ex. 131

V^7	I^{maj7}

Ex. 135

Mirror Modal Equivalents

Here is an ascending C Ionian scale. It is constructed out of a specific pattern of intervals.

A mirror image of the ascending C Ionian scale is created by constructing a descending scale from C using the same series of intervals. This mirror image is a descending C Phrygian scale.

This unique relationship makes Ionian and Phrygian **Mirror Modal Equivalents**.

This process can be extended to every mode of the Major scale, resulting in three pairs of modes. They are:

Ionian - Phrygian

Lydian - Locrian

Mixolydian - Aeolian

The remaining mode, Dorian, is **reflective** because of its palindromic interval pattern. This causes Dorian to be its own Mirror Image when it is reflected.

Another example of a reflective scale is the Double Harmonic Major scale.

Here the seven modes of the Major scale are paired with their Mirror Modal Equivalent, and arranged in order of brightness. The ascending modes move from bright (Lydian) to dark (Dorian). The descending modes move from dark (Locrian) to bright (Dorian).

C Lydian

Drop Voicings

Drop Voicings are commonly used on the guitar because its tuning does not permit easily reached 4-way close structures. A Drop voicing reorders the chord providing a more usable inversion.

Spread triads over bass notes

The term spread triad over bass note implies a triad in which the middle note has been raised an octave.

Ex. 138

Whenever possible, the spread triads over bass notes have been reduced to seventh chord structures.

Ex. 139

$$\frac{E}{C} = Cmaj^{7\#5} = C \quad \begin{matrix} E & G\# & B \\ 3 & \#5 & 7 \end{matrix}$$

Because $\frac{C}{E}$ is a type of Cmajor chord it will be listed in the major chord category. The voicings labeled "Twelve Tone type" are derived from the chromatic scale. These only include chords with three consecutive chromatic tones as in:

$$\frac{ELyd}{C} = C \quad \begin{matrix} E & A\# & B \\ 3 & \#5 & 7 \end{matrix}$$

Quartal Voicings

Quartal voicings are constructed by the superimposition of diatonic fourth intervals. The three part quartal voicing is most commonly used because it functions nicely in an upper-structure capacity. For this reason the (Q) nomenclature has been devised.

Three Part Quartal Voicings

Ex. 140

Cmaj

CQ⁺⁴ DQ EQ F⁺⁴Q GQ AQ BQ

Ex. 141

a) F⁺⁴Q = $\begin{matrix} & +4 & & P4 \\ & \diagdown & \diagup & \\ F & & B & \\ & \diagup & \diagdown & \\ & & E & \end{matrix} \longrightarrow 1 \quad \#4 \quad 7$

Skipped String Voicings

Skipped string voicings are particularly useful on the guitar. They consist of a quartal type voicing on the E,A,D or A,D,G strings and a melody note two strings above.

Ex. 142

The voicing above is comprised of the notes E, Bb, Eb, Db. On its own this chord is incomplete but if played over certain bass notes it produces such chords as: $F\sharp^{13}$, $C^{7\sharp 9b9}$, E^{b7b9} , A^{7b5b9} , $E^{MA\sharp 11\#5}$, G^{o7b13} .

Try to discover all the substitution possibilities of each form.

Major Scale Skipped String Voicings

Melodic Minor Scale Skipped String Voicings

Dominant Diminished Skipped String Voicings

Here is an example of using skipped string quartal voicings in an F blues.

Ex. 143

The musical score for Ex. 143 is written in 4/4 time and consists of six staves. The key signature has one flat (Bb). The score includes various musical notations such as triplets, slurs, and dynamic markings like *8va* and *loco*. Chord symbols are placed above the staves to indicate the harmonic structure.

Staff 1: Starts with a whole rest, followed by a triplet of eighth notes (Bb, D, F) and a triplet of eighth notes (G, Bb, D). The chord symbol **F7** is above the staff.

Staff 2: Continues with triplet eighth notes (F, Ab, C) and triplet eighth notes (Bb, D, F). The chord symbol **F7** is above the staff.

Staff 3: Features a triplet of eighth notes (F, Ab, C) and a triplet of eighth notes (Bb, D, F). The chord symbol **F7** is above the staff.

Staff 4: Includes a triplet of eighth notes (F, Ab, C) and a triplet of eighth notes (Bb, D, F). The chord symbol **F7** is above the staff.

Staff 5: Shows a triplet of eighth notes (F, Ab, C) and a triplet of eighth notes (Bb, D, F). The chord symbol **F7** is above the staff.

Staff 6: Ends with a triplet of eighth notes (F, Ab, C) and a triplet of eighth notes (Bb, D, F). The chord symbol **F7** is above the staff.

Chord symbols throughout the score include **F7**, **Bb7**, **D7b9**, **G-7**, **C7alt**, **D7alt**, and **C7**.

Open String Voicings

This section includes some of my favorite open string voicings. The open string(s) can occur as any member of the chord. Play through all the chords putting a check next to your favorites. It is also a good idea to organize the chords into progressions in order to remember them.

The following table summarizes the chords and their voicing details shown in the diagrams:

Chord	Frets	Notes (Fret)	Open Strings	Muted
D ^{6/9/sus4}	5, 7	D ⁿ (5,1), F ^b (7,3), A ⁿ (7,5)	E ² , G ²	B ²
A ^{MA9/sus4}	5, 7	A ⁿ (5,1), C ⁿ (7,3), E ⁿ (7,5)	D ² , F ²	G ²
F ^{#sus4/3}	5, 7	F ^{#n} (5,1), A ⁿ (7,3), C ⁿ (7,5)	D ² , F ²	B ²
Ab ⁻⁹	3, 5	Ab ⁿ (3,1), B ⁿ (5,3), D ⁿ (5,5)	C ² , E ²	F ²
F ^{MA9}	5, 7	F ⁿ (5,1), A ⁿ (7,3), C ⁿ (7,5)	D ² , F ²	B ²
C ^{MA9/#4}	3, 5	C ⁿ (3,1), Eb ⁿ (5,3), G ⁿ (5,5)	F ² , A ²	B ²
F ^{#sus4/3}	3, 5	F ^{#n} (3,1), A ⁿ (5,3), C ⁿ (5,5)	D ² , F ²	B ²
G ^{MA9/13/#4}	3, 5	G ⁿ (3,1), B ⁿ (5,3), D ⁿ (5,5)	C ² , E ²	F ²
Ab ^{-11/b6}	5, 7	Ab ⁿ (5,1), B ⁿ (7,3), D ⁿ (7,5)	C ² , E ²	F ²
F ^{#7/6/sus4}	3, 5	F ^{#n} (3,1), A ⁿ (5,3), C ⁿ (5,5)	D ² , F ²	B ²
F ^{maj7/#11}	3	F ⁿ (3,1), A ⁿ (3,3), C ⁿ (3,5)	D ² , F ²	B ²
E ^{sus4/add9}	3	E ⁿ (3,1), G ⁿ (3,3), B ⁿ (3,5)	C ² , E ²	F ²

Polychords (Triads over Triads)

The polychords in this section are moveable but have been specifically labeled for easier understanding. These kind of voicings work well for intros and endings where there is more harmonic freedom.

Using Comping Voicings in New Ways

The comping voicings on the following page may be used in a variety of ways. To demonstrate, let's look at some possible substitutions for Eb^{7alt}.

Ex. 144

a)	Eb ^{7/#5/#9}	=	3	#5	b7	#9
			G	B	C#	F#
sub.	G ^{maj7b5}	=	1	3	b5	7
b)	Eb ^{7/b9/#5}	=	b9	3	#5	R
			E	G	B	D#
sub.			1	b3	5	7
c)	Eb ^{7/b9/#5}	=	b7	b9	3	#5
			Db	Fb	Abb	Cb
sub.	Db ^{-7b5}	=	1	b3	b5	b7

Any of these substitutions (and their inversions) will work in place of Eb^{7alt}, because they all share the same parent melodic minor scale (E melodic minor).

Consult the substitution section for further applications.

Constructing Chord Scales

Chord scales for comping and soloing may be constructed from upper-string voicings. For demonstration purposes let's use an F7 chord.

What I would first do is decide on an appropriate scale, in this case we'll use Fmix#11. Then, using the parent melodic minor scale, list all of the chords generated by the scale.

Ex. 145

C^{-maj7} D^{7/sus4/b13} Eb^{maj7/#4/#5} F^{7/#11} G^{7/b13} A^{-9/b5} B^{7/#9/b9/#5/b5}

Next I would isolate all of the chords whose root was a basic chord tone of F⁷.

Ex. 146

Out of these chords I would pick two, in this case C^{-maj7} and Eb^{maj7/#5/#4}, on which the scale would be based. By alternating these chords and their inversions an Fmix#11 scale may be built in the top voice. This may be done by alternating voicings as seen here in Ex. 147.

Ex. 147

F¹³ C^{-MA7} Eb^{MA7#4} C^{-MA7} C^{-MA7} Eb^{MA7#4} F⁹ (A-7^{b5})

Remember, you may mix together any of the drop voicing groups for these purposes.

Diminished Scale Voicings

The accompanying diminished voicings can be used in tonic or dominant situations, depending on fret position. Most of the voicings are derived from this pattern.

Ex. 148

The open E and A strings work nicely as bass notes for these type voicings.

Ex. 149

The voicings are grouped in pairs because they are the same shapes transposed.

Ex. 150

Remember, all of the voicings are moveable by minor thirds.

Dim⁷ Type Comping Voicings

Stretch Voicings

For lack of a better term, the following harmonies are called stretch voicings. I recommend that you practice these voicings for no more than ten minutes at a time. This will prevent any left hand discomfort caused by the reaches involved. If you experience some pain it may simply be related to the stretching of the left hand muscles.

This pain, however, should diminish as your left hand muscles become more accustomed to the stretches.

I would also like to remind you that all of these voicings can be moved modally on the fingerboard.

Ex. 151

The diagram shows a musical staff with a treble clef. It contains seven groups of notes, each representing a triad. The first group is labeled 'original voicing from key of Cmajor' and consists of the notes C4, E4, and G4. The subsequent six groups are labeled 'Modal Movement in Cmajor' and show the same triad shifted up the staff by one octave each time. A horizontal line with an arrow pointing to the right is drawn below the staff, indicating the direction of the modal movement. The notes in each group are: C4, E4, G4; C5, E5, G5; C6, E6, G6; C7, E7, G7; C8, E8, G8; C9, E9, G9; and C10, E10, G10.

original voicing from key of Cmajor

Modal Movement in Cmajor

Chordal Lines (ii⁷ V⁷ I^{maj7})

Here are some chordal lines for ii⁷ V⁷ I^{maj7} progressions. I have used some single notes for variety.

Try transposing these to all twelve keys. Transposing helps you to better understand the variety of chord fingerings on different string groups.

After mastering these, work out some of your own for minor ii V's.

CHAPTER 3

SCALES + ARPEGGIOS

Chapter 3

Mode (Scale) Practice

Modes should be practiced every day to warm-up the hands and develop fingerboard understanding. They should be practiced to a metronome in a variety of rhythms (eighths, quarters, eighth-note triplets, sixteenths, sixteenth-note triplets and dotted rhythms) paying particular attention to sound clarity.

Thorough knowledge of scale fingerings (two and three notes per string) will enable you to execute even the most difficult passages.

I would recommend practicing one scale group (major, melodic minor or harmonic minor) per day, isolating one mode for the purpose of interval studies. Practicing too many interval or arpeggio studies in one sitting will only add to your confusion.

Close Position Fingerings

Close position fingerings work on a one finger per fret principle. This allows the left hand to be in a compact position giving the fingers greater striking power.

The added striking power creates a percussive attack aurally resembling a picked note. If you are already familiar with these fingerings move on to the two note per string scales.

Altered Dominant bb7

Scales with two notes per string

When playing through the following scale examples you will discover that unlike most scales, these ascend in pitch while the left hand moves towards the nut (this is generally associated with a descent in pitch).

This unusual movement will open up your fingering possibilities and lead you in different directions while improvising. These fingerings work nicely if you slur on each string.

Modes of the Major Scale

Ionian:

Dorian:

Phrygian:

Lydian:

Mixolydian:

Aeolian:

Locrian:

Modes of the Melodic Minor Scale

Harmonic Minor:

Diatonic Intervals

Practicing scales in diatonic interval combinations should be part of your daily practicing. It will help you develop both technical and improvisational skills as well as improving left and right hand coordination.

Here is a example of the diatonic intervals of a (C) major scale.

Ex. 154a

Ex. 154b

Ex. 154c

Ex. 154d

Ex. 154e

Ex. 154f

Also practice descending. Then practice all scales and modes in intervals including all auxiliary scales such as the diminished, augmented, whole-tone, pentatonics and Blues.

Diatonic Arpeggios

In addition to intervals, all scales should be broken into both diatonic triads and seventh chords. I suggest practicing these within the close (2 note per string) and open (3 note per string) fingering systems.

Here are a few practice examples.

Triads (in C Major)

Ex. 155a

Ex. 155b

Ex. 155c

Ex. 155d

Seventh Chords

Ex. 156a

C_{MA}7 D-7 E-7 F_{MA}7 G7 A-7 B-7^{b5} C_{MA}7

Ex. 156b

C_{MA}7 B-7^{b5} A-7 G7 F_{MA}7 E-7 D-7 C_{MA}7

Ex. 156c

C_{MA}7 D-7 E-7 F_{MA}7 G7 A-7 B-7^{b5} C_{MA}7

Ex. 156d

C_{MA}7 B-7^{b5} A-7 G7 F_{MA}7 E-7 D-7 C_{MA}7

Try to experiment with as many variations of note and chord order as possible.

Triad Variation

Ex. 157

C D- E- F G A- B° C

Seventh Chord Variation

Ex. 158

C_{MA}7 D-7 E-7 F_{MA}7 G7 A-7 B-7^{b5}

Spread Triad Arpeggios

Ascending & Descending

The image displays six staves of guitar music, each featuring a sequence of notes and corresponding guitar chord diagrams. The chords are arranged in ascending and descending patterns across the staves.

Staff 1: C, C/E, C/G, C, C/G, C/E, C

Staff 2: Cm, Cm/E $\flat$, Cm/G, Cm, Cm/G, Cm/E $\flat$, Cm

Staff 3: C $^\circ$, C $^\circ$ /E $\flat$, C $^\circ$ /G $\flat$, C $^\circ$, C $^\circ$ /G $\flat$, C $^\circ$ /E $\flat$, C $^\circ$

Staff 4: C+, C+/E, C+/G $\sharp$, C+, C+/G $\sharp$, C+/E, C+

Staff 5: Csus4, Csus4/F, Csus4/G, Csus4, Csus4/G, Csus4/F, Csus4

Staff 6: Clyd, Clyd/F $\sharp$, Clyd/G, Clyd, Clyd/G, Clyd/F $\sharp$, Clyd

Seventh Chord Arpeggios

I have compiled this chart of seventh chord arpeggios by combining all of the possible chromatic alterations of the basic chord tones. the naming of arpeggios relates to the intervals above the root (see seventh chord formula chart).

Seventh Chord Formulas

$$\frac{Bb-}{C} = 1 \quad 3 \quad 5 \quad b7 \quad b9 \quad \text{sus4}$$

$$\frac{B}{C} = 1 \quad 3 \quad 5 \quad 7 \quad \#9 \quad \#11$$

$$\frac{B-}{C} = 1 \quad 3 \quad 5 \quad 7 \quad 9 \quad \#11$$

Major Bitonal Arpeggios (over C at the 8th fret)

Minor Bitonal Arpeggios (over C- at the 8th fret)

Diminished Bitonal Arpeggios (over C° at the 8th fret)

Augmented Bitonal Arpeggios (over C⁺ at the 8th fret)

More About Practicing Scales and Arpeggios

In order to maximize your practicing time, scales should be practiced in the combinations in which they fall in a particular chord progression.

Ex. 160

	ii ⁷	V ⁷	I ^{Maj7}
			
Comb. 1	D-Dorian	G-Mixolydian	C-Ionian
Parent Scale	(C-Major)	(C-Major)	(C-Major)
Comb. 2	D-Dorian	G-Alt.Dom.	C-Lydian
Parent Scale	(C-Major)	(Ab-Mel. Min.)	(G-Major)

There are many combinations to choose from if you consider all the possible scale choices for each chord.

Ex. 161

ii ⁷	V ⁷	I ^{maj7}
Dorian	Mixolydian	Ionian
Melodic Minor	Mixolydian #11	Lydian
Aeolian	Whole Tone	Lydian Augmented
Phrygian	Dominant Diminished	Major Pentatonic
Minor Pentatonic	Altered Dominant	Major Pentatonic P5 ↑
Major Pentatonic M2↓	Major Pentatonic Tritone ↑↓	Major Pentatonic M2 ↑
Harmonic Minor	Phrygian Major	

After getting comfortable with the mode changes you should begin connecting them by diatonic interval patterns.

Ex. 162

D-7 (Dorian)	G ^{7alt} (Alt. Dom.)	C ^{Maj7#11} (Lydian)
		

As you can see, the interval pattern continues on the closest available note of the next mode.

CHAPTER 4

LINEAR STUDIES

Chapter 4: Linear Studies

ii V I Progressions

The major (key) ii V I progression can fall into a number of different categories.

Ex. 163

- a)** ii V⁷ I^{maj7}
 Dmin⁷ G⁷⁽¹³⁾ C^{maj7}
 unaltered (basic)
- b)** ii⁷ V^{7alt} I^{maj7}
 Dmin⁷ G^{7/#5/b9} C^{maj7}
 with altered Dom. Chord
- c)** ii⁷ V⁷ I⁷
 D-⁷ G⁷⁽⁹⁾ C⁷⁽¹³⁾
 Dom.⁷ tonic chord with unaltered V⁷
- d)** ii⁷ V^{7alt} I^{7alt}
 D-⁷ G^{7/#9/#5} C^{7/b9/b5}
 altered Dom.⁷ tonic chord with altered V⁷
- e)** ii^{7/b6} V^{7alt} I^{maj7/#5}
 D-^{7/b6} Ab^{sus4} C^{maj7/#4/#5}
 G
 modal ii V I

The minor (key) ii V i Progression contains a half-diminished supertonic chord, an altered dominant seventh chord and a minor or minor-major seventh tonic chord.

Ex. 164

ii ^{7b5}	V ^{7alt}	I ^{7 (maj7)}
D ^{-7b5}	G ^{7/#5/b9}	C ^{-7 (maj7)}

The following examples are in two or four bar phrase lengths. The interval relationship of the melody notes to the chords should be analyzed as follows.

Ex. 165

g)

Gm7 C7b9 Fmaj7

Exercise g) is a two-measure piece. The first measure contains a Gm7 chord and a C7b9 chord. The second measure contains an Fmaj7 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 7, 6, 7, 6, 5, 5, 8, (8), 6, 5.

h)

Gm7 C7 Fmaj7

Exercise h) is a two-measure piece. The first measure contains a Gm7 chord and a C7 chord. The second measure contains an Fmaj7 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 7, 5, 8, 5, 6, 8, 5, 7, 4, (4).

i)

Gm7 C7b9 Fmaj7

Exercise i) is a two-measure piece. The first measure contains a Gm7 chord and a C7b9 chord. The second measure contains an Fmaj7 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 7, 8, 7, 9, 10, 8, 9, 8, 11, 10. There are also 'H' and 'P' markings above the staff.

j)

Em7b5 A7alt Dm7

Minor keys

Exercise j) is a two-measure piece. The first measure contains an Em7b5 chord and an A7alt chord. The second measure contains a Dm7 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 5, 8, 7, 5, 6, 8, 5, 6, 7.

k)

Em7b5 A7alt Dm9

Exercise k) is a two-measure piece. The first measure contains an Em7b5 chord and an A7alt chord. The second measure contains a Dm9 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 7, 8, 8, 10, 10, 8, 10, 11, 12, (12).

l)

Em7b5 A7alt Dm9

Exercise l) is a two-measure piece. The first measure contains an Em7b5 chord and an A7alt chord. The second measure contains a Dm9 chord. The notation includes a treble clef, a key signature of one flat, and a common time signature. The guitar tablature below the staff shows the fret numbers for each note: 3, 3, 2, 5, 2, 3, 2, 5, 5. There are also 'sl.' and 'P' markings above the staff.

m)

Em7b5 A7alt Dm9

Exercise m) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 8-6-5-7-6-5-8. The bass line for the second measure is 6-5-7-4.

n)

Em7b5 A7alt Dm9

Exercise n) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 5-2-3-5-2-4-5-2. The bass line for the second measure is 3.

o)

Em7b5 A7alt Dm9

Exercise o) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 8-(8)-5-6-6-5-7-5-(5). The bass line for the second measure is 3.

p)

Em7b5 A7alt Dm9

Exercise p) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 7-8-7-5-5-7-8-7-8. The bass line for the second measure is 8-7-5-8.

q)

Em7b5 A7alt Dm11

Exercise q) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 5-2-3-2-5-3. The bass line for the second measure is (3).

r)

Em7b5 A7alt Dm11

Exercise r) is a two-measure piece. The first measure contains a descending eighth-note scale: G4, F#4, E4, D4, C4, B3, A3, G3. The second measure contains a descending eighth-note scale: F#3, E3, D3, C3, B2, A2, G2, F#2. The bass line (TAB) for the first measure is 8-7-8-5-6-4-5-8. The bass line for the second measure is (8).

e)

Am7

Exercise e) is a single-measure exercise in 4/4 time. The treble clef staff shows a melodic line starting on G4, moving up stepwise to A4, B4, C5, D5, E5, F#5, G5, then down stepwise to F#5, E5, D5, C5, B4, A4, and finally G4. The bass clef staff shows a corresponding bass line starting on G2, moving up stepwise to A2, B2, C3, D3, E3, F#3, G3, then down stepwise to F#3, E3, D3, C3, B2, A2, and finally G2. A 'P' (pull-off) is indicated above the G5 note in the treble staff and below the G3 note in the bass staff.

f)

Am7 D7 Gmaj7

Exercise f) is a four-measure exercise in 3/4 time. The treble clef staff shows a melodic line with triplets and slurs. The bass clef staff shows a bass line with triplets and slurs. The exercises are labeled Am7, D7, and Gmaj7. The first measure is Am7, the second is D7, and the third is Gmaj7. The fourth measure is a whole rest.

g)

Am7 D7

Exercise g) is a four-measure exercise in 4/4 time. The treble clef staff shows a melodic line with slurs and a pull-off. The bass clef staff shows a bass line with slurs and a pull-off. The exercises are labeled Am7 and D7. The first measure is Am7, and the second is D7. The third and fourth measures are whole rests.

h)

Am7 D7

Exercise h) is a four-measure exercise in 4/4 time. The treble clef staff shows a melodic line with slurs and a pull-off. The bass clef staff shows a bass line with slurs and a pull-off. The exercises are labeled Am7 and D7. The first measure is Am7, and the second is D7. The third and fourth measures are whole rests.

i)

Cm7 F7alt Bmaj7

Exercise i) is a four-measure exercise in 4/4 time. The treble clef staff shows a melodic line with slurs and a pull-off. The bass clef staff shows a bass line with slurs and a pull-off. The exercises are labeled Cm7, F7alt, and Bmaj7. The first measure is Cm7, the second is F7alt, and the third is Bmaj7. The fourth measure is a whole rest.

j)

F#m7 **B7alt** **Emaj7**

Exercise j) is a guitar piece in 4/4 time. The first staff shows a melody with triplets and slurs. The second staff shows the fretboard with fingerings. The key signature has one sharp (F#). The exercise is divided into three sections: F#m7, B7alt, and Emaj7. The notation includes triplets, slurs, and sl. (slide) markings.

k)

Am7 **D7alt** **Gmaj7**

Exercise k) is a guitar piece in 4/4 time. The first staff shows a melody with slurs and sl. (slide) markings. The second staff shows the fretboard with fingerings. The key signature has no sharps or flats. The exercise is divided into three sections: Am7, D7alt, and Gmaj7. The notation includes slurs, sl. (slide) markings, and a 'P' (pick) marking.

l)

Bm7 **E7alt**

Exercise l) is a guitar piece in 4/4 time. The first staff shows a melody with slurs and sl. (slide) markings. The second staff shows the fretboard with fingerings. The key signature has two sharps (F# and C#). The exercise is divided into two sections: Bm7 and E7alt. The notation includes slurs, sl. (slide) markings, and 'H' (hammer-on) and 'P' (pick) markings.

Amaj7

Continuation of exercise l). The first staff shows a melody with slurs and sl. (slide) markings. The second staff shows the fretboard with fingerings. The key signature has no sharps or flats. The notation includes slurs, sl. (slide) markings, and 'H' (hammer-on) and 'P' (pick) markings.

m)

Gm7 **C7alt** **Fmaj7**

Exercise m) is a guitar piece in 4/4 time. The first staff shows a melody with slurs and sl. (slide) markings. The second staff shows the fretboard with fingerings. The key signature has one sharp (F#). The exercise is divided into three sections: Gm7, C7alt, and Fmaj7. The notation includes slurs, sl. (slide) markings, and 'H' (hammer-on) and 'P' (pick) markings.

n)

Gm7 **C7alt** **Fmaj7**

Exercise n) is a 12-measure piece in 4/4 time. The first measure is Gm7, the second is C7alt, and the third is Fmaj7. The notation includes a treble clef, a key signature of one flat (Bb), and a common time signature. The melody features slurs and slides (sl.) over the notes. The bass line is shown on a six-string guitar fretboard with fingerings (7-8, 7-10, 10-11, 8-9, 10-9, 8, 11-10, 9-8, 9, 10-7, 9, 6, 6, 6, 7-9, 9-11, 11, 13, 13, 14) and a 9th fret marker.

o)

Dm7 **G7alt** **Cmaj9**

Exercise o) is a 12-measure piece in 3/4 time. The first measure is Dm7, the second is G7alt, and the third is Cmaj9. The notation includes a treble clef, a key signature of one flat (Bb), and a 3/4 time signature. The melody features slurs and slides (sl.) over the notes. The bass line is shown on a six-string guitar fretboard with fingerings (12-10, 10-8, 8-12, 8, 11-7, 9, 10-8, 9, 7, 9-10, 9, 8, 7, 10, (10)) and a 12th fret marker.

p)

Dm7 **G7alt** **Cmaj7**

Exercise p) is a 12-measure piece in 4/4 time. The first measure is Dm7, the second is G7alt, and the third is Cmaj7. The notation includes a treble clef, a key signature of one flat (Bb), and a common time signature. The melody features slurs and slides (sl.) over the notes. The bass line is shown on a six-string guitar fretboard with fingerings (10-12, 14-10, 9-12, 12-10, 10-12, 13-10, 9-11, 13, 11-10, 13, 9-11, 12-9, 7-8, 9, 9-7, 7-9) and a 10th fret marker.

q)

Dm7 **G13b9** **Cmaj9**

Exercise q) is a 12-measure piece in 4/4 time. The first measure is Dm7, the second is G13b9, and the third is Cmaj9. The notation includes a treble clef, a key signature of one flat (Bb), and a common time signature. The melody features slurs and slides (sl.) over the notes. The bass line is shown on a six-string guitar fretboard with fingerings (12-12, 9-10, 11-9, 12-10, 10-12, 12-10, 8-9, 9-7) and a 12th fret marker.

r)

Dm7 **G7b9** **Cmaj7**

Exercise r) is a 12-measure piece in 4/4 time. The first measure is Dm7, the second is G7b9, and the third is Cmaj7. The notation includes a treble clef, a key signature of one flat (Bb), and a common time signature. The melody features slurs and slides (sl.) over the notes. The bass line is shown on a six-string guitar fretboard with fingerings (12-14, 15-12, 13-15, 12-15, 13-15, 14-15, 13-14, 12-14, 15-15, 12-15, 12-16, 12-14) and a 12th fret marker.

s)

Dm7 **G7alt** **Cmaj7**

Exercise s) is a three-measure piece. The first measure is in Dm7, the second in G7alt, and the third in Cmaj7. The notation includes a treble clef, a key signature of one flat (Bb), and a 4/4 time signature. The melody consists of eighth and sixteenth notes, with triplets and slurs. Fingering is indicated by numbers 1-4. The bass line is shown on a six-string guitar staff with fret numbers 10, 12, 10, 12, 10, 12, 11, 8, 11, 8, 6, 8, 11, 8, 11, 8, 6, 8, 10, 8, 10, 9, 6, 9, 10, 7, 10, 12, 10, 12, 10, 7, 12. The exercise is marked with 'sl.' (slur) and 'P H' (pick and hammer) for the triplets.

t)

Dm7 **G7** **Cmaj7**

Exercise t) is a four-measure piece. The first measure is in Dm7, the second in G7, and the third in Cmaj7. The notation includes a treble clef, a key signature of one flat (Bb), and a 4/4 time signature. The melody consists of eighth and sixteenth notes, with triplets and slurs. Fingering is indicated by numbers 1-4. The bass line is shown on a six-string guitar staff with fret numbers 10, 10, 9, 12, 10, 12, 9, (9), 12, 10, 10, 13, 10, 12, 12, (12), 9, 12, 10, 9, 9, 12. The exercise is marked with 'P' (pick) and 'H' (hammer) for the triplets.

One Measure ii V I's in Minor

Ex. 168

a)

Dm7 $\flat$ 5 **G7alt** **Cm7**

Handwritten notation for exercise a) in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with fingerings. Chords Dm7 $\flat$ 5, G7alt, and Cm7 are indicated above the staff.

b)

Dm7 $\flat$ 5 **G7 $\flat$ 9** **Cm7**

Handwritten notation for exercise b) in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with fingerings. Chords Dm7 $\flat$ 5, G7 $\flat$ 9, and Cm7 are indicated above the staff.

c)

Dm7 $\flat$ 5 **G7alt** **Cm7**

Handwritten notation for exercise c) in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with fingerings. Chords Dm7 $\flat$ 5, G7alt, and Cm7 are indicated above the staff.

d)

Dm7 $\flat$ 5 **G7alt** **Cm7**

Handwritten notation for exercise d) in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with fingerings. Chords Dm7 $\flat$ 5, G7alt, and Cm7 are indicated above the staff.

e)

Dm7 $\flat$ 5 **G7alt** **Cm7**

Handwritten notation for exercise e) in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with fingerings. Chords Dm7 $\flat$ 5, G7alt, and Cm7 are indicated above the staff.

f)

Dm7 $\flat$ 5

G7alt

Cm7

Exercise f) is a 12-measure piece in 7/8 time. The melody is written on a treble clef staff with a key signature of two flats (Bb, Eb). It features slurs, accents (acc), and breath marks (H). The fretboard diagram below shows the corresponding fingerings for the thumb (T), index (A), and middle (B) fingers across the 12 measures.

Fretboard diagram (T A B):

- Measure 1: 11-9-8
- Measure 2: 11-10-9-8
- Measure 3: 10-7-10
- Measure 4: 6-7-9-10
- Measure 5: 8-9-11-12
- Measure 6: 9-10-12
- Measure 7: 13
- Measure 8: 10-11-13
- Measure 9: 13-11
- Measure 10: 10
- Measure 11: 13-12-10
- Measure 12: 13

g)

Turnarounds

The term turnaround commonly refers to a four chord progression found in the last two measures of most AABA and blues form tunes.

Its purpose is to relieve monotony and help to aurally define the form of a tune by creating strong harmonic motion which ultimately resolves to the tonic chord. The frequent use of turnarounds in the jazz idiom requires the improviser to have a large variety of harmonic and melodic variations from which to draw upon.

Turnaround Substitutions

The following examples demonstrate the use of triadic substitutions over to turnaround progression.
Try to come up with your own lines based on these principles.

Additional substitutions can be found in the triadic superimposition chart later in this chapter.

Ex. 173

The Triads are labeled for analysis

a)

[Fmaj7] [Ab] [Db] [Gb] Fmaj7(Am7)

b)

[F] [Ab] [Dbadd9] [C7]

c)

[F] [Ab] [Dbadd9] [Eb7]

d)

[Fadd9] [Db] [Ab] [Fdim]

e)

[F] [Db] [Ab] [Bb]

Example a) shows a progression of Fmaj7(Am7), D7alt, Gm7(G7), C7alt, and Fmaj7(Am7). The guitar staff shows fret numbers 7, 5, 6, 5, 4, 5, 6, 6, 6, 4, 6, 7, 6, 8, 7.

Example b) shows a progression of F, Ab, Dbadd9, and C7. The guitar staff shows fret numbers 5, 8, 7, 5, 8, 6, 5, 4, 6, 4, 6, 4, 3, 5, 5, 3, 2.

Example c) shows a progression of F, Ab, Dbadd9, and Eb7. The guitar staff shows fret numbers 8, 10, 10, 8, 9, 8, 10, 11, 11, 8, 10, 9, 11, 8, 8, 11, 10.

Example d) shows a progression of Fadd9, Db, Ab, and Fdim. The guitar staff shows fret numbers 7, 10, 10, 8, 9, 11, 10, 9, 8, 10, 11, 10, 8, 8, 8, 6.

Example e) shows a progression of F, Db, Ab, and Bb. The guitar staff shows fret numbers 5, 8, 7, 5, 6, 6, 6, 4, 6, 5, 4, 6, 8, 7, 6, 6, 8.

Cycle of Fifths

The term cycle of fifths or simply cycle describes the movement of dominant seventh chords with a descending fifth or ascending fourth root pattern. The cycle may be superimposed over any progression as long as the intersecting chord's root is a P5 or m2 above its resolution chord.

Ex. 174

Diagram illustrating a cycle of fifths progression for dominant seventh chords. The progression is shown on a staff in 4/4 time, with the following chords: F[#]7, B7, E7, A7, D7, G7, C7, and F7 (circled and labeled "intersecting chord"). The progression is written as a sequence of chords on a staff, with the final chord (F7) circled and labeled "intersecting chord".

The diagram shows a musical staff with a treble clef and a 4/4 time signature. Above the staff, the chords F[#]7, B7, E7, A7, D7, G7, C7, and F7 are listed. The staff contains the following chords: F7, B^b7, F7, F7, and B^b7. The F7 chord at the end of the staff is circled, and a line points to it with the text "intersecting chord".

Cycle of Fifths Exercise

Here is an extended cycle of fifths exercise based on the shapes from the previous page.

Ex. 176

Ex. 176 shows a cycle of fifths exercise in 4/4 time, one sharp key signature. The exercise is divided into three systems, each with a treble clef staff and guitar tablature (T, A, B). The chords are: D7, G7, C7, F7, B $\flat$ 7, E $\flat$ 7, A $\flat$ 7, and D $\flat$ 7. The first system covers measures 1-4, the second system covers measures 5-8, and the third system covers measures 9-12. The tablature includes various fret numbers and ties between measures.

Ex. 177 Try to break up the rhythm in different ways.

Ex. 177 shows three variations of a cycle of fifths exercise in 4/4 time, one sharp key signature. The exercise is divided into three systems, each with a treble clef staff and guitar tablature (T, A, B). The chords are: D7, G7, C7, F7, B $\flat$ 7, and E $\flat$ 7. The first system (a) covers measures 1-4, the second system (b) covers measures 5-8, and the third system (c) covers measures 9-12. The tablature includes various fret numbers and ties between measures.

Pentatonic Scales

A pentatonic scale is simply a scale consisting of five notes. The two most common pentatonic scales are:

C major pentatonic:

and

A minor pentatonic:

The following chart is of pentatonic scale usage over major⁷, min⁷, and Dom⁷ chords. They should also be grouped into progressions and used over chord changes.

	D ⁻⁷	b7	1	9	11	5	
	E ^{-7b6}	b6	b7	1	3	11	
	G ⁻⁷	11	5	6	1	9	
Dom ⁷	C ⁷	1	9	3	5	13	
	A ⁷	#9	11	5	b7	1	
	D ⁷	b7	1	9	11	5	
	F# ^{7 alt}	#11	#5	b7	b9	#9	
	Ab ^{7 alt}	3	#11	#5	(7)	b9	
	Eb ^{7 alt}	13	7	b9	3	#11	

Melodic Minor Pentatonics

By making a simple adjustment to the Major and Minor Pentatonics, we can create pentatonics from the Melodic Minor.

Ex. 180a

C Major Pentatonic	C Major b6 Pentatonic
1 2 3 5 6	1 2 3 5 (b6)

Ex. 180b

A Minor Pentatonic	A Minor b5 Pentatonic
1 b3 4 5 b7	1 b3 4 (b5) b7

Other Melodic Minor Pentatonics can also be created with different combinations of 5 note patterns.

Ex. 181a

B7#9#5 (B Altered Pentatonic)	D Minor 6(9) Pentatonic
1 #9 3 #5 b7	1 2 b3 5 6

Ex. 181b

Bb Augmented Major Pentatonic	G Dorian b2 Pentatonic
1 3 #4 #5 7	1 b2 4 5 b7

Triadic Superimposition

Triadic Superimposition is the melodic or harmonic stacking of triads over existing harmonies.

Ex. 182a

Harmonic superimposition.

Csus4 Triad *A Triad* *G Triad*
 D-11 G¹³(#11) Cmaj⁹

Ex. 182b

Melodic superimposition.

D-7 G7 CMaj7
 Csus4 A Triad G Triad

The addition of lower chord members (3rds, 5ths, 7ths) in melodic and harmonic usage will keep the superimpositions from sounding detached from the harmony (though this may be desirable in a more modern context).

The triadic superimposition chart is broken down into the basic chord types maj⁷, min⁷ and dom⁷, all with C as the tonic. I would suggest transposing these to different keys in order to create harmonic and melodic lines over common chord progressions.

Make a list of a few superimpositions over ii V I progressions and then try to improvise over one or more of the chords using triads.

Ex. 182c

	F ⁻⁷	Bb ⁷	Eb ^{maj7}
①	Ab triad	E triad	Csus ⁴
②	F-	Bsus ⁴	Dsus ⁴
③	Absus ⁴ (aeolian)	G Triad	F triad

The Ab^{sus4} triad used on the Fm⁷ chord produces an aeolian sound where a dorian sound is normally heard. This type of interchange is called modal mixture (which will be discussed later in this chapter).

Check the scale derivation column to see if the chord function matches with the scale or not.

Triadic Superimposition Chart (Maj⁷)

Chord	Superimposed Triad	Location from the root of the chord	Note functions of superimposition			Modal sound (scale derivation)

Seventh Chord Superimposition

Seventh chord superimposition works the same way as triadic superimposition.
We are just stacking a seventh chord instead of triads.

Ex. 184a Melodic usage

Am7 D7alt Gmaj7

Em7 Cmaj7 Gbmaj7(b5)

Ex. 184b Harmonic usage

Cmaj7 Am7 Cmaj7 Cmaj7 Ab7 Bbsus4(9) Cm7b5 Bm7 Gmaj7

Am7 D7alt Gmaj7

Once again, try to group these together in progressions to facilitate the contextual integration of this concept.

Hybrid Arpeggios

Hybrid Arpeggios do not fall into triadic or seventh chord categories but contain pieces of each. Added note chords are types of hybrid arpeggios.

Ex. 185a-c

The image displays three musical examples of hybrid arpeggios, each consisting of a treble clef staff with a 2/4 time signature and a corresponding bass staff with guitar tablature.

- Example 1: Cadd9**
 - Fingering: 1 (C), 9 (G), 3 (E), 5 (C)
 - Tablature: 3 (E), 5 (G), 2 (E), 5 (C)
- Example 2: Cadd#11**
 - Fingering: 1 (C), 3 (E), #11 (F#), 5 (C)
 - Tablature: 3 (E), 2 (E), 4 (F#), 5 (C)
- Example 3: Csus4(3)**
 - Fingering: 1 (C), 3 (E), 4 (G), 5 (C)
 - Tablature: 3 (E), 2 (G), 3 (E), 5 (C)

This next chart contains several possible hybrid arpeggios over each of the four chord types.

Hybrid Arpeggio Chart (Maj⁷)

Chord	Hybrid Structure	Note functions of superimposition				Modal sound (scale derivation)	
C ^{maj7}	C ^{add9}	1	9	3	5	Ionian, Lydian

Playing Over Unusual Resolutions

① Dim7 chords resolving down by ½ step to minor

Tunes found in: All the Things You Are
Wave
Triste
Night and Day
Body and Soul
Here's That Rainy Day

The resolution tendencies are as follows:

Scales

Ex. 186a

½ step resolutions

B^o7 (Tonic Dim.) 1 Maj9 b3 11 b13

B^b-7 (Dorian)

1 9 9 b3 11 11 5 b7

Weak (Ok. But Not As Strong)

Ex. 186b

whole step resolution

B^o7 b5 Maj7 b13 b^{bb}7 Maj9

B^b-7

11 5 5 1 Weak 11

Bdim7 1/2 step resolution

Ex. 186d

Bbm7

388

② Dom7 chords resolving up by whole step

Tunes found in: Just Friends
Yardbird Suite
There Will Never Be Another You
Donna Lee
Cherokee
Stella By Starlight

Scales

E^b7 (mixolydian #11)

Fmaj7 (ionian, lydian)

Ex. 187a

½ step resolutions

E^b7 1 9 #11 5 13 b7

Fmaj7 13 7 7 11 #11 #11 #5 13

Weak

Ex. 187b

whole step resolutions

E^b7 1 9 3 #11 5 13 b7

Fmaj7 1 9 1 3 9 #11 5 13 #5

Ex. 187c

Ex. 187c musical notation. Treble clef, 4/4 time. Chords: Eb7, Fmaj7. Fingering: 8, 5, 6, 6, 5, 8, 7, (7). Includes a triplet of eighth notes.

Ex. 187d

Ex. 187d musical notation. Treble clef, 4/4 time. Chords: Eb7, Fmaj7. Includes slurs, triplets, and slurs. Fingering: 6, 8, 5, 8, 5, 7, 8, 5, 8, 5, 6, 8, 6, 5, 7, 5, 6, 8, 6, 5, (5).

You will find the whole step resolutions are not as strong as half-step ones. The harmonic tendencies of Eb7 to Fmaj7 are the same for the chords.

Ex. 188

- | | | | |
|---|-------|---|-------------|
| 1 | Eb7 | → | FMAJ7 |
| 2 | A7ALT | → | Dm7 |
| 3 | A7ALT | → | BbMAJ7 |
| 4 | Eb7 | → | BbMAJ7 |
| 5 | A7ALT | → | FMAJ7 OR F7 |
| 6 | Eb7 | → | Am7 |
| 7 | A7ALT | → | Am7 |

Further explanation of this concept can be found in the harmony chapter.

Other Resolutions To Know

1. Third related chords (similar types)

Ex. 189

2. ii V's moving up and down by half steps

Ex. 190a

Ex. 190b

3. i⁷ vi^{7b5} ii^{7b5} V^{7alt}

Ex. 191

Many of the other resolution possibilities are covered in the harmony chapter.

Remember: Try to take advantage of half step resolutions because they make the transitions much smoother.

Melodic Ideas

A small collection of scale tones can bear a large amount of melodic material through the use of octave displacement.

A four note order such as G C D E can become this.

Ex. 192 & 193

Ex. 192 & 193

Try this over C, Csus4, Bbmaj7, F#7alt, Em7b6. Odd number note ideas metrically overlap in the measure.

5 Note Grouping

Try this over Em7b5, Cmaj7, F#7alt, D7#11

I have included some more examples like these from different scales.

Ex. 194a

Ex. 194a is a musical exercise in 4/4 time. The top staff shows a melodic line with notes G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4, C4, B3, A3, G3, F#3, E3, D3, C3, B2, A2, G2, F#2, E2, D2, C2, B1, A1, G1, F#1, E1, D1, C1, B0, A0, G0, F#0, E0, D0, C0, B-1, A-1, G-1, F#-1, E-1, D-1, C-1, B-2, A-2, G-2, F#-2, E-2, D-2, C-2, B-3, A-3, G-3, F#-3, E-3, D-3, C-3, B-4, A-4, G-4, F#-4, E-4, D-4, C-4, B-5, A-5, G-5, F#-5, E-5, D-5, C-5, B-6, A-6, G-6, F#-6, E-6, D-6, C-6, B-7, A-7, G-7, F#-7, E-7, D-7, C-7, B-8, A-8, G-8, F#-8, E-8, D-8, C-8, B-9, A-9, G-9, F#-9, E-9, D-9, C-9, B-10, A-10, G-10, F#-10, E-10, D-10, C-10, B-11, A-11, G-11, Ex. 194g

The image shows a musical score for a guitar exercise. The top staff is a treble clef staff with a key signature of one sharp (F#) and a 4/4 time signature. The melody consists of the following notes: G4 (quarter), A4 (quarter), B4 (quarter), C#5 (quarter), B4 (quarter), A4 (quarter), G4 (quarter), F#4 (quarter), E4 (half). The bottom staff is a guitar tablature staff with six lines. The fret numbers are: 7, 8, 9, 10, 7, 7, 8, 7, 9, 7, 8, 6, 9. A bracket is placed under the first two fret numbers (7 and 8) in the first measure.

Ex. 195h

Ex. 195h is a musical exercise in the key of D^b (B-flat major). The notation includes a treble clef staff with a key signature of two flats and a bass staff with a TAB system. The exercise consists of three measures, each containing a melodic line with slurs and a corresponding fingered bass line. The melodic line starts on D^b and moves in a descending pattern. The bass line is a simple sequence of numbers: 1, 2, 1, 4, 2, 1, 3, 1, 4, 2, 1, 3, 1, 4, 3.

Ex. 195i

Ex. 195i is a musical exercise in the key of E^b (D-flat major). The notation includes a treble clef staff with a key signature of three flats and a bass staff with a TAB system. The exercise consists of three measures, each containing a melodic line with slurs and a corresponding fingered bass line. The melodic line starts on E^b and moves in a descending pattern. The bass line is a sequence of numbers: 11, 10, 12, 10, 13, 11, 12, 10, 13, 12, 10, 8, 7, 5, 6, 5, 8, 6, 8, 6.

Ex. 195j

Ex. 195j is a musical exercise in the key of C (C major). The notation includes a treble clef staff with a key signature of no sharps or flats and a bass staff with a TAB system. The exercise consists of three measures, each containing a melodic line with slurs and a corresponding fingered bass line. The melodic line starts on C and moves in a descending pattern. The bass line is a sequence of numbers: 15, 13, 15, 12, 15, 15, 13, 12, 13, 15, 13, 12, 15, 12, 13, 12, 12, 15, 13, 15, 12, 15, 14, 13.

Ex. 195k

Ex. 195k is a musical exercise in the key of G (G major). The notation includes a treble clef staff with a key signature of one sharp and a bass staff with a TAB system. The exercise consists of three measures, each containing a melodic line with slurs and a corresponding fingered bass line. The melodic line starts on G and moves in a descending pattern. The bass line is a sequence of numbers: 2, 2, 4, 5, 3, 2, 5, 2, 4, 4, 5, 5, 2, 5, 5.

Ex. 195l

Ex. 195l is a musical exercise in the key of C (C major). The notation includes a treble clef staff with a key signature of no sharps or flats and a bass staff with a TAB system. The exercise consists of three measures, each containing a melodic line with slurs and a corresponding fingered bass line. The melodic line starts on C and moves in a descending pattern. The bass line is a sequence of numbers: 2, 5, 4, 5, 6, 4, 6, 5, 7, 8, 8, 7, 9, 10, 7, 10, 9, 10, 12, 9, 12, 10, 12, 13, 13, 12, 14, 15, 12, 15, 14, 16, 17, 10, 12, 12, 14, 15, 13, 15, 14, 14, 16, 17.

Ex. 195m

Ex. 195s

Ex. 195s musical notation. The staff is in E-flat major (E $\flat$). The melody consists of eighth and quarter notes, with slurs and accents. The bass line is a continuous eighth-note pattern. The notation includes fingerings (6, 8, 5, 6, 7, 8, 5, 6, 8, 5, 6, 8, 5) and breath marks (H, P).

Ex. 195t

Ex. 195t musical notation. The staff is in B major (B). The melody consists of eighth and quarter notes, with slurs and accents. The bass line is a continuous eighth-note pattern. The notation includes fingerings (7, 6, 7, 9, 6, 7, 6, 7, 9, 6, 8, 6, 8, 9, 6, 8, 7, 8, 9, 7, 9, 9, 6, 9) and breath marks (H).

Modes: Linear Approach

es should be practiced in all keys and positions on the guitar. Each study concentrates on a particular mode and strives to bring out its own distinctive flavor.

This is done through the use of target notes and intervallic structures.

s has been provided, it will be your job to look for harmonic structures such as broken intervals, diatonic triads and seventh chords.

7/sus4/b9 (C melodic minor chords)

an important point regarding passing tones.

possibilities using only scale tones, I would encourage developing lines without passing tones so as
fluous notes. This is why most of the examples contain only scale tones (a great starting place for
e diatonic triads and seventh chords we covered in both chapters 1+3).

This is done through the use of target notes and intervallic structures.

Ex. 196

[F Lydian Major] [F] [Fadd9] [D# Lydian +] [D7sus4] [B +7] #9

B7alt

[illegible]

This can also be used over:

F#7#11, Ebmaj7#5, Am9b5, Cmmaj7, D7/sus4/b9 (C melodic minor chords)

Before we go on I would like to make an important point regarding passing tones.

Because of the abundance of linear possibilities using only scale tones, I would encourage developing lines without passing tones so as to not cluster your playing with superfluous notes. This is why most of the examples contain only scale tones (a great starting place for developing these kinds of lines are the diatonic triads and seventh chords we covered in both chapters 1+3).

Ex. 200h is a guitar exercise in the key of Bbdim7. It features a melodic line on the treble staff and a corresponding guitar tablature on the bottom staff. The exercise includes slurs and accents (P). The tablature shows fingerings for the left hand, including slurs and accents.

Ex. 200i

E7(#9)

Ex. 200i is a guitar exercise in the key of E7(#9). It features a melodic line on the treble staff and a corresponding guitar tablature on the bottom staff. The exercise includes slurs and accents (P, sl.). The tablature shows fingerings for the left hand, including slurs and accents.

Ex. 200j

Bbdim7

Ex. 200j is a guitar exercise in the key of Bbdim7. It features a melodic line on the treble staff and a corresponding guitar tablature on the bottom staff. The exercise includes slurs and accents (sl., H). The tablature shows fingerings for the left hand, including slurs and accents.

The image displays a musical score for the song "The Sound of Silence" by Simon & Garfunkel. It includes a guitar part on a treble clef staff and a bass part on a bass clef staff. The guitar part features a melodic line with a key signature of one sharp (F#) and a 4/4 time signature. The bass part provides a harmonic foundation with a similar key signature and time signature. The score is presented in a clean, professional layout with clear notation and a large, stylized watermark in the background.

Ex. 200k

Ab7(b9)

12 11 8 9 10 10 7 7

9 9 6 6 8 8 9 9

Ex. 2001

E♭dim7

Ex. 200m

F13(#9)

The musical notation for the guitar solo is presented in two staves. The top staff is a standard musical staff with a treble clef, showing the melody with various accidentals (sharps and naturals) and articulation marks (accents, slurs, and a 'sl.' marking). The bottom staff is a guitar tablature (TAB) staff, showing the fret numbers (1 through 7) corresponding to the notes in the melody above. The TAB staff includes fingerings (1, 2, 3, 4, 5, 6, 7) and a 'sl.' marking for a slide.

Ex. 200n

Bdim7

The image shows a musical score for the song "The Rose Tree". It consists of two systems of music. The first system has a treble clef staff with a melody and a guitar accompaniment staff. The melody starts with a key signature of one flat (Bb) and changes to two flats (Bb, Eb) after the first measure. The guitar part is written in standard notation with fret numbers and includes a capo on the 1st fret. The second system continues the melody and guitar part, also with a key signature change. The score is divided into two systems, each with a repeat sign.

Ex. 200o

A13(b9)

Ex. 200p

Cdim7

Ex. 200p, Cdim7 chord. The exercise is written on a treble clef staff and a guitar tablature staff. The treble staff shows a melodic line with slurs, slurs, and accents (sl., H, sl., P). The guitar staff shows fingerings for the left hand (T, A, B) and right hand (8, 10, 10, 10, 8, 10, 11, 9, 12, 10, 9, 8, 10, 12, 10, 12, 11, 10, 11, 11).

Ex. 200q

G7(b9)

Ex. 200q, G7(b9) chord. The exercise is written on a treble clef staff and a guitar tablature staff. The treble staff shows a melodic line with slurs, slurs, and accents (sl., H, sl., P, sl., P, sl.). The guitar staff shows fingerings for the left hand (T, A, B) and right hand (P, P, sl., H, 9, 6, 7, 6, 9, sl., P, sl.).

Whole Tone Lines

Ex. 201a

C7(#5)

Ex. 201d

F7(b5)

Ex. 201e

F#7(#5)

Ex. 201f
C#7(b5)

The musical score for Ex. 201f, C#7(b5), is presented in two staves. The top staff is a treble clef staff with a key signature of one sharp (F#). It contains a melodic line with various ornaments and slurs. The bottom staff is a tablature staff with fret numbers. The key signature is one sharp (F#) and the mode is C#7(b5).

Treble Staff:

- Measure 1: Quarter note (F#4), eighth note triplet (F#4, G#4, A4), eighth note triplet (A4, B4, C5), quarter note (B4), eighth note triplet (A4, G#4, F#4), eighth note triplet (F#4, E4, D4), quarter note (C4).
- Measure 2: Quarter note (C4), eighth note triplet (D4, E4, F#4), eighth note triplet (F#4, G#4, A4), quarter note (B4), eighth note triplet (A4, G#4, F#4), eighth note triplet (F#4, E4, D4), quarter note (C4).
- Measure 3: Quarter note (C4), eighth note triplet (D4, E4, F#4), eighth note triplet (F#4, G#4, A4), quarter note (B4), eighth note triplet (A4, G#4, F#4), eighth note triplet (F#4, E4, D4), quarter note (C4).
- Measure 4: Quarter note (C4), eighth note triplet (D4, E4, F#4), eighth note triplet (F#4, G#4, A4), quarter note (B4), eighth note triplet (A4, G#4, F#4), eighth note triplet (F#4, E4, D4), quarter note (C4).

Tablature Staff:

- Measure 1: 9, 8, 7, 6, 5, 7, 5, 6, 6, 7, 8.
- Measure 2: 6, 7, 9, 10, 11, 9, 10, 11, 8, 4, 5, 3, 1.

Modal Mixture

Modal Mixture is the combination of one or more modal scales over a given chord change.

Ex. 202

B♭maj7

B♭ pent. B♭ ionian B♭ lydian B♭ lydian aug.

color tones

a) [Pentatonic] [Ionian] [Lydian] [Lydian Augmented]

B♭maj7

TAB: 12 10 12 10 13 12 10 11 10 12 10 12 11 9 12 12

b)

TAB: 12 12 10 10 11 12 13 12 10 10 12 9 11 12 12 10

c)

TAB: 1 1 5 6 3 6 3 5 7 8 5 7 9 7 7 8

d)

TAB: 7 7 7 8 6 7 7 6 9 7 8 8 5 7 7 8

The color tones are the most characteristic notes of the mode. I have used them as structural points from which to build my lines.

Using One Interval Set Over Many Chords

Many of the greatest players have been the ones who learned to incorporate a limited amount of melodic material into the most harmonic structures.

Ex. 205a
Esus⁴/₃

Ex. 205b
Esus⁴/₃

Cmaj7sus4

= Cmaj7sus4, D-7/13, F/E, G7sus4,
A-7b6, B-7b5, Cmaj7, D7/sus4/b9,
Ebmaj7/#5, F7b5, A-7b5/#9, B7alt

This particular Esus⁴/₃ hybrid structure could be used over these chords.

E^{maj7}, E^{sus4}, F^{#-7/9}, A/G[#], A^{maj7}, B^{7sus4}, A/B, C^{#-7b6}, D^{#-7b5}, A-^{maj7}, B^{7/sus4/b9}, C^{maj7#5}, D^{7b5}, E^{7sus4}, F^{#-9b5}, G^{#7alt}

Hybrid structures are useful in these instances because many can be found in more than one scale.

This concept can be similarly applied by transposing a particular interval structure over many chord changes

The interval structure used is comprised of a whole-step half-step alternation

--H-- = Half-Step
--W-- = Whole-Step
--m3-- = Minor Third

Ex. 206a

A7(#9) Ddim7

Ex. 206b For the sake of variety

Up 1 half-step

Because of its interval structure, this type of idea can function in a variety of ways

Ex. 207a

F7alt Bbmaj7

Ex. 207b

Bbm6 Am7

This example is over a standard progression

Ex. 208

E^ø A7alt Cm7 F7

#9 b9 R b7 11 b3 9 1 b7 3 13 5 #11 3

Fm7 Variation Bb7 Ebmaj7

b3 3 9 1 b7 3 #9 b9 R b7 3

Ab7 Bbmaj7 E^ø A7alt Dm7

R b7 13 5 3 3 b2 R b7 #9 b9 R b7 3

Outside Playing Over One Chord

Here are a few examples of outside playing approaches on one chord. You provide the analysis.

Ex. 210a

Gm7

Ex. 210a shows two systems of music for Gm7. Each system consists of a treble clef staff and a bass staff with TAB notation. The first system has two measures. The second system has two measures. The notation includes various accidentals, slurs, and slurs. The TAB notation includes fret numbers and slurs.

Ex. 210b

Dm7

Ex. 210b shows two systems of music for Dm7. Each system consists of a treble clef staff and a bass staff with TAB notation. The first system has two measures. The second system has two measures. The notation includes various accidentals, slurs, and slurs. The TAB notation includes fret numbers and slurs.

Ex. 210c

F7

Ex. 210c shows two systems of music for F7. Each system consists of a treble clef staff and a bass staff with TAB notation. The first system has two measures. The second system has two measures. The notation includes various accidentals, slurs, and slurs. The TAB notation includes fret numbers and slurs.

Ex. 210d

A^bmaj7

Ex. 210d shows two systems of music for A^bmaj7. Each system consists of a treble clef staff and a bass staff with TAB notation. The first system has two measures. The second system has two measures. The notation includes various accidentals, slurs, and slurs. The TAB notation includes fret numbers and slurs.

Ex. 210e
Fmaj7

Staff notation for Ex. 210e, Fmaj7. The melody features slurs, accents (P), and breath marks (H). The tablature below shows fingerings on strings 9, 10, 8, 9, 10, 8, 8, 10, 11, 10, 11, 8, 9, 8, 12, 11, 10, 9, 8, 10, 7, 10.

Ex. 210f
C7

Staff notation for Ex. 210f, C7. The melody features slurs, accents (P), and breath marks (H). The tablature below shows fingerings on strings 6, 4, 5, 3, 4, 7, 5, 6, 5, 4, 5, 7, 7, 4, 6, 7, 5, 8, 5, 0, 4, 4.

Staff notation for Ex. 210f, C7 (continued). The melody features slurs, accents (P), and breath marks (H). The tablature below shows fingerings on strings 6, 6, 6, 6, 8, 8, 7, 7, 7, 4, 4, 4, 5, 5, 5, 6, 6, 7, 4, 4, 5.

Ex. 210g

Chromaticism And Twelve-Tone Applications

Chromaticism and twelve-tone techniques are not commonly discussed in jazz improvisation books for reasons that are unclear to me. The use of chromaticism in jazz became popular during the bebop era through the use of approach notes and chromatic enclosure of chord tones.

Ex. 211a

Gm7

C7

Fmaj7

Ex. 211b

Bbm7

Eb7

Abmaj7

Ex. 211c

D7

Chromaticism is best used when there is a target note, preferably a lower chord member, that falls on a strong beat.

Here are a few examples of common chromatic approach usage.

T = Target
P.T. = Passing Tone

Ex. 212a

Cmaj7

[Approach Tones] T [Enclosure] sl. T

T A B

9 10 9 12 12 11 10 9 12 10 12 8 9 12

Ex. 212b

Cmaj7 P.T. H [Enclosure] H **Dm7** [Enclosure] sl. H sl. **G7** P.T. T sl.

T A B

8 9 8 11 9 10 7 10 9 8 6 7 5 4 7 5 4 8 7 7 5

Cmaj7 Target [Enclosure] sl. T

T A B

5 7 8 7 5 8 9 7 9 10 10

Ex. 212c

The B natural is a target note from A# while also functioning as part of a diatonic enclosure idea.

Dm7 P.T. H T P.T. T P.T. H T P.T. [Approach Tones] P T [Enclosure] H T **Cmaj7**

T A B

12 15 14 12 13 15 12 14 15 14 13 15 12 15 12 13 14

Chromatic usage in diatonic scale lines (without discussing enclosure) is usually best if confined to filling in whole steps with one chromatic passing tone. The bebop dominant scale is an example of this kind of idea.

Ex. 213

D7 (D Bebop Dom)

10 9 8 7 10 8 7 9 7 11 10 9 7 10 9 7 10

You might try the same thing with both major and minor type scales as long as the passing tone falls on a weak beat.

Ex. 214

Am7

Here is an example of an A-dorian line using passing tones.

Twelve Tone Triadic Formulas

Here are some formulas for creating twelve tone rows comprised of triadic groupings. This is an incomplete list but should provide the basis for creating your own rows.

Group					
I		Cm	Dm	E	F#
	Formula	Min M2↑	Min M2↑	Maj M2↑	Maj TT↓
II		C ⁺	Dm	Eb ⁺	F#
	Formula	Aug M2↑	Min m2↑	Aug M2↑	Maj TT↓
III		C ⁺	Eb	F#m	B ^o
	Formula	Aug m3↑	Maj m3↑	Min P4↑	Dim m2↑
IV		C ^o	F ^o	Gm	A
	Formula	Dim P4↑	Dim M2↑	Min M2↑	Maj m3↑
V		C ⁺	Db ⁺	D ⁺	Eb ⁺
	Formula	Aug m2↑	Aug m2↑	Aug m2↑	Aug M6↑
VI		C ^{sus4}	Db ^{sus2}	D	E ^{lyd}
	Formula	Sus4 m2↑	Sus2 m2↑	Maj M2↑	Lyd m6↑
VII		C ^{sus4}	D ^{lyd}	Bb ^o	B
	Formula	Sus4 M2↑	Lyd m6↑	Dim m2↑	Maj m2↑
VIII		C ^{sus4}	D ⁺	G#m	A
	Formula	Sus4 M2↑	Aug TT↓	Min m2↑	Maj m3↑

I have given the interval relationships between triads to facilitate transposition. The formula can be started on any of the triads and continued around the loop. For example:

Group III Formulas

①	Aug m3↑	Maj m3↑	Min P4↑	Dim m2↑
②	Dim m2↑	Aug m3↑	Maj m3↑	Min P4↑
③	Min P4↑	Dim m2↑	Aug m3↑	Maj m3↑
④	Maj m3↑	Min P4↑	Dim m2↑	Aug m3↑

In four different keys it might look like this.

①	C ⁺	E ^b	F [#] m	B [°]
②	D ^{b°}	D ⁺	F	A ^b m
③	E	G ^m	C [°]	D ^{b+}
④	A ^m	D [°]	E ^{b+}	F [#]

On the next page you will find a few lines that demonstrate this concept.

Ex. 216a

Group I

Cm7

Chords: Cm, Dm, E, F#, H, Cm, Dm, E, F#, Cm

Tablature: 5-8, 6-5, 8-7, 6-4, 5-7, 6-9, 8-8, 8-7, 10-8, 7-6, 9-8, 6-7, 8-8

Ex. 216b

Group I

Cm7

Chords: Cm, Dm, E, F#, Cm, Dm, E, F#

Tablature: 3-3, 6-5, 3-7, 6-9, 9-7, 6-9, 8-8, 8-7, 10-8, 7-6, 9-8, 6-7, 8-8

Ex. 217

This one combines two groups as well as a transposed group.

Group III

Group I

Group III transposed

Chords: C7, C+, Eb, F#m, Bdim, Cm, Dm, E, F#, Gm, Cdim Db+

Tablature: 4-8, 7-5, 8-6, 7-10, 10-7, 9-10, 8-10, 10-12, 14-13, 15-11, 13-11, 7-8, 10-11, 10-9

Group IV transposed

Chords: E, G, Bbdim, Ebdim, Fm

Tablature: 12-13, 14-12, 12-10, 11-9, 11-10, 11-8, 10-10, 11-10, (10)

Ex. 218

Resolution notes become members of other triads and a new row is continued.

Group VI

Group VII

Chords: Db sus4, F lydian, Eb, Dsus2, C sus4, D lydian, B, Bdim

Tablature: 11-11, 13-12, 10-10, 8-8, 10-7, 11-13, 12-10, 10-12, 13-14, 11-13, 14-13, 13-11, 14-11

The line above might work over Db7sus4, C7alt, F7alt, G7alt etc.

Remember it is usually a good idea to connect the triads as smoothly as possible to create a more seamless effect.

Twelve-Tone Formulas Using Seventh Chords

Twelve-tone rows can also be formed by combining three seventh chords. This is an example of a twelve tone row using seventh chords:

Ex. 219

Row of 3 seventh chords

Try to come up with your own progressions and lines from this concept.

A few thoughts about triadic an seventh chord rows.

1. Because they are cycles (keep repeating) they can be continued and will keep producing twelve-tone rows.
2. In order to find chords that the rows sound best with, try to take advantage of the cyclical nature of the formulas. Begin and end on the same triads or seventh chords. In the example below, the row begins on an Eb- triad and uses Group III's formula we get C, Eb-, Ab°, A+, triads whose harmonic rhythm may be broken down like this:

Ex. 220

This progression could be used over an Eb-⁷ chord because of the beginning chord Eb- or on an F#^{7alt} chord because the beginning chord Eb- produces an F#¹³ chord and the departure chord to the next measure is a C major triad which produces an F#^{7/b5/b9} chord.

Ex. 221

F#7alt **Bmaj7 (Min7)**
Ebm **Abo** **A+** **C**

F#13 **F#7b5b9**

The outer chords are most important because they establish the tonality and then lead you to the next tonality.

Non-Tertian Twelve-Tone Rows

Dodecaphonic rows can be constructed through interval systems. Grouping of thirds might look like this.

Ex. 222

As we can see in the previous example, the interval relationships are not always strict in nature (some may have extra intervals for linking purposes).

Ex. 223

Fourth based row

Fifth based row

Sixth based row

Non-Systematic Row

Non-Systematic Rows may use many interval combinations but should avoid any harmonic structures in order to maintain the equality of each note.

Ex. 224

Row 1 [] Row 2]

This type of line works equally well over free tunes and chords such as C7alt. Twelve-tone rows may be played in inversion (mirror of intervals), retrograde (backwards) and retrograde inversion (mirror of intervals and backwards).

12-Tone Triad Etude No.1

Modal Shapes

A modal shape is a fingerboard pattern whose intervals produce a modal or chordal sound.

Ex. 225

This shape (Ex. 222) if played in an ascending manner would look like this:

Ex. 226

These notes form an E^{add9} hybrid structure which is derived from these scales: E-ianian, E-lydian, E-mixolydian, E-mixolydian b6 and E-mixolydian #11.

This shape may also be played over any chords derived from the parent scales B-melodic minor, E-major, B-major, A-major and A-melodic minor.

Ex. 227

Bb^{7alt}, E^{maj7}, A^{maj7/#11}, F#m¹¹, E/F#, D/C#, E^{7sus4}, D^{maj7/#11}, C^{maj7#5}, Am^{maj7}, D^{7#11}, etc.

Experiment playing the shapes in different interval combinations as well as combining them together to create longer lines.

Ex. 228

Ex. 229

Combination of two hybrid structures
Eadd9 and F#add9 over Bb7alt.

These are the three hybrid structures
involved in this line.

Next is an example of a free line using harmonic shapes.

Ex. 230

B

8^{va}

T
A
B

Shapes used:

Tonic and Dominant Diminished Scale Shapes

These shapes will work over the chords: $F\sharp^{o7}$, A^{o7} , C^{o7} , $E\flat^{o7}$, F^{13b9} , D^{13b9} , B^{13b9} , $A\flat^{13b9}$

Ex. 231

Here are examples of some other shapes

Ex. 232

Unorthodox Left Hand Techniques

This section will deal with melodic patterns utilizing large intervals on one string. The execution of these lines will require an unusually large stretch of the left hand. Be careful not to over-practice these techniques because the wide hand stretches and may lead to injury if not approached with caution.

Ex. 233a

Ex. 233a is a musical exercise in 4/4 time. The top staff shows a melodic line with notes and slurs, including a circled '1' above the first measure. The bottom staff shows the corresponding fretboard positions for the T and B strings, with fingerings indicated by numbers 7, 12, 7, 12, 7, 7, 9, 7, 12, 7, 9, 10, 7, 12, 14, 10, 14, 11, 9.

Ex. 233b

Ex. 233b is a musical exercise in 4/4 time. The top staff shows a melodic line with notes and slurs, including a circled '1' above the first measure. The bottom staff shows the corresponding fretboard positions for the T and B strings, with fingerings indicated by numbers 1, 6, 6, 4, 9, 4, 9, 9, 7, 7, 12, 8, 12, 10, 15, 11, 16, 11, 14, 14.

Ex. 233c

Ex. 233c is a musical exercise in 4/4 time. The top staff shows a melodic line with notes and slurs. The bottom staff shows the corresponding fretboard positions for the T and B strings, with fingerings indicated by numbers 5, 9, 6, 10, 9, 6, 10, 7, 11, 10, 7, 11, 8, 12, 11, 8, 12, 10, 14, 12, 10, 14, 11, 15, 13.

Ex. 233d

8va

Ex. 233d is a musical exercise in 4/4 time. The top staff shows a melodic line with notes and slurs. The bottom staff shows the corresponding fretboard positions for the T and B strings, with fingerings indicated by numbers 12, 17, 14, 17, 11, 16, 13, 16, 8, 14, 11, 14, 8, 13, 10, 13, 7, 12, 9.

Ex. 233e

8va

Ex. 233e is a musical exercise in 4/4 time. The top staff shows a melodic line with notes and slurs. The bottom staff shows the corresponding fretboard positions for the T and B strings, with fingerings indicated by numbers 12, 18, 12, 15, 18, 12, 19, 12, 15, 19, 12, 18, 12, 15, 18, 12, 18, 12, 15.

even number allow direction change) sweep technique is not always followed. The position changes can be derived through stroke indications.

A Ionian to A Mixolydian Study

Instagram (5/25/20)

B VII

First system of musical notation for the A Ionian to A Mixolydian Study. It features a treble clef staff with a key signature of one sharp (F#) and a 2/4 time signature. The melody is written in a single line, with various accidentals and ties. Below the staff is a tablature section with two staves labeled 'T' and 'B'. The tablature includes fret numbers and rhythmic markings.

Second system of musical notation. It continues the melody from the first system, featuring a treble clef staff with a key signature of one sharp (F#) and a 2/4 time signature. The tablature section below the staff includes fret numbers and rhythmic markings.

Slower

Third system of musical notation, marked 'Slower'. It features a treble clef staff with a key signature of one sharp (F#) and a 2/4 time signature. The melody is written in a single line, with various accidentals and ties. Below the staff is a tablature section with two staves labeled 'T' and 'B'. The tablature includes fret numbers and rhythmic markings.

Quick

Fourth system of musical notation, marked 'Quick'. It features a treble clef staff with a key signature of one sharp (F#) and a 2/4 time signature. The melody is written in a single line, with various accidentals and ties. Below the staff is a tablature section with two staves labeled 'T' and 'B'. The tablature includes fret numbers and rhythmic markings.

E Mixolydian Study

Instagram (11/23/19)

First system of musical notation for E Mixolydian Study. The staff shows a melodic line with notes and accidentals, and a corresponding fretboard diagram below it. The fretboard diagram includes fingerings (e.g., 12-17, 14-17, 12-14, 17-12-14) and breath marks (H, P, ①).

Second system of musical notation for E Mixolydian Study. The staff shows a melodic line with notes and accidentals, and a corresponding fretboard diagram below it. The fretboard diagram includes fingerings (e.g., 12-10-14, 12-11-14, 11-12, 12-14, 14-16, 14-16, 12-17, 12-17-19-14) and breath marks (sl., H, P).

Third system of musical notation for E Mixolydian Study. The staff shows a melodic line with notes and accidentals, and a corresponding fretboard diagram below it. The fretboard diagram includes fingerings (e.g., 18-16, 16-18-16-14, 14-13, 13-11, 11-9, 9-11) and breath marks (P, H, sl., ①).

Fourth system of musical notation for E Mixolydian Study. The staff shows a melodic line with notes and accidentals, and a corresponding fretboard diagram below it. The fretboard diagram includes fingerings (e.g., 7-9-7, 9-6, 9-7, 5-7, 5-7-4-(4), 0, 7-9-11, 9-10, 16-0-16-14) and breath marks (P, sl., ½, let ring ---- 4, sl.). The system concludes with a double bar line and a key signature change to E major.

D Bebop Dominant Study

Instagram (7/23/19)

Sheet music for D Bebop Dominant Study, featuring a treble clef, 4/4 time signature, and a key signature of one sharp (F#). The music is written for guitar, with a D7 chord indicated at the beginning. The notation includes various fingerings (P, H, ①), slurs, and a triplet. The bass line is provided below the treble staff, showing fret numbers and fingerings (T, A, B).

First system (measures 1-4):

- Measure 1: D7 chord, F#4, A4, B4, D5. Fingering: ①, P, H, P. Bass: 11-9, 12-9-11, 10-12, 12-10-9-10.
- Measure 2: F#4, A4, B4, D5. Fingering: ①, P, H, ①. Bass: 11-9, 9-7, 12-10-12.
- Measure 3: F#4, A4, B4, D5. Fingering: P, H, H. Bass: 11-9, 7-9, 12-10-12.
- Measure 4: F#4, A4, B4, D5. Fingering: P, P, P, P. Bass: 5-10-8-(8)-7, 10-8, 7-9, 11-10-9, 12-10.

Second system (measures 5-8):

- Measure 5: F#4, A4, B4, D5. Fingering: 3, H, 3. Bass: H, 12-17, 14-12, 15-12-11-12.
- Measure 6: F#4, A4, B4, D5. Fingering: P, P, P, P. Bass: 14-12, 13-10, 12-11, 12-10.
- Measure 7: F#4, A4, B4, D5. Fingering: H. Bass: 10-12, 9-12.
- Measure 8: D7 chord, F#4, A4, B4, D5. Fingering: D7. Bass: 5, 4, 5.

B Minor Study

Instagram (8/21/19)

Bm11

First system of musical notation. The top staff is in 4/4 time, starting with a treble clef and a key signature of one sharp (F#). The first measure contains a Bm11 chord. The subsequent measures show a melodic line: B2 (quarter), C#3 (quarter), D4 (quarter), E4 (quarter), F#4 (quarter), G4 (quarter), A4 (quarter), B4 (half). The bottom staff shows the corresponding fretboard positions for the guitar: T (5), A (7), B (7) for the first measure. The second measure has frets 7, 9, 9, 9, 9, 6. The third measure has frets 9, 12, 12, 9, 10, 12.

Second system of musical notation. The top staff continues the melodic line: C#4 (quarter), D4 (quarter), E4 (quarter), F#4 (quarter), G4 (quarter), A4 (quarter), B4 (half), C#5 (quarter), D5 (quarter), E5 (quarter), F#5 (quarter), G5 (quarter), A5 (quarter), B5 (half). The bottom staff shows the corresponding fretboard positions: T (9), A (14), B (14) for the first measure. The second measure has frets 15, 17, 12, 12, 14, 12. The third measure has frets 14, 12, 17, 22, 17, 17. The fourth measure has frets 19, 19, 16, 14, 14, 16, 12, 14.

Third system of musical notation. The top staff continues the melodic line: C#5 (quarter), D5 (quarter), E5 (quarter), F#5 (quarter), G5 (quarter), A5 (quarter), B5 (half), C#5 (quarter), D5 (quarter), E5 (quarter), F#5 (quarter), G5 (quarter), A5 (quarter), B5 (half). The bottom staff shows the corresponding fretboard positions: T (14), A (11), B (12) for the first measure. The second measure has frets 9, 7, 9, 7, 9, 7, 9, 7. The third measure has frets 9, 7, 9, 7, 10, 7.

Instagram (5/30/20)

Instagram (5/30/20)

The first system of the musical score for 'The Wind' consists of a treble clef staff and a guitar tablature staff. The treble staff is in 3/4 time with a key signature of one flat (B-flat). It contains two measures: the first measure has a whole note chord of B-flat, D, and F, and the second measure has a whole note chord of B-flat, D, and G. The guitar tablature staff has six lines labeled T (top), A, B, and B from top to bottom. The first measure shows fret numbers 14, 12, 13, and 10 on the four strings, with an upward arrow indicating a sweep up. The second measure shows fret numbers 15, 12, 12, and 10 on the four strings, with an upward arrow indicating a sweep up.

The image shows a musical score for the song "The Wind" by The Beatles, specifically a guitar and bass duo arrangement. The score is written for guitar and bass, with a key signature of one sharp (F#) and a 4/4 time signature. The guitar part is in G major, and the bass part is in G major. The score is divided into three measures. The first measure is in G major, the second measure is in G major, and the third measure is in D major. The guitar part is written on a single staff, and the bass part is written on a single staff. The guitar part includes a key signature change to D major for the final measure. The bass part includes a key signature change to D major for the final measure. The score is for a guitar and bass duo.

The musical score for "The Wind" by John Williams, featuring a guitar solo. The score is in 2/4 time, key of B-flat major, and includes a guitar tablature below the staff. The solo is marked with a "Guitar Solo" bracket and a "Guitar" label. The tablature shows fret numbers and fingerings for the solo.

C Mixolydian #11 Study

Sheet music for C Mixolydian #11 Study, featuring guitar notation and tablature.

System 1: The first system begins with a C7 chord. The melody is written in treble clef, 4/4 time, with notes and fingerings (P, T, T, P, T, b, T, P) indicated. The guitar tablature below shows fret numbers (8, 10, 7, 8, 10, 7, 9, 7, 8, 9, 6, 8, 10, 6, 14, 10, 11, 10, 11, 10, 15, 14, 10, 11, 10, 11, 10, 14) and includes a large watermark.

System 2: The second system continues the melody with notes and fingerings (H, P, P, H, P, sl, P, H, P, P, P). The guitar tablature shows fret numbers (12, 10, 11, 12, 10, 11, 10, 11, 8, 11, 10, 8, 7, 10, 8, 7, 9, 8, 7, 9, 7, 8, 9, 8, 7, 8, 7, 10, 8, 10) and includes a large watermark.

System 3: The third system concludes the study with a C7 chord. The melody features a triplet (H, P) and a half note (H). The guitar tablature shows fret numbers (7, 8, 7, 10, 7, 9, 10, 7, 9, 10, 7, 8) and includes a large watermark.

E Altered Dominant Study

Instagram (1/11/20)

First system of musical notation. The staff is in 4/4 time. The melody consists of eighth and sixteenth notes, with slurs and accents. The guitar tablature below shows fingerings for the right hand, with numbers 1-5 and 7-10. The system ends with a double bar line.

Second system of musical notation. The staff is in 4/4 time. The melody continues with slurs and accents. The guitar tablature shows fingerings for the right hand, with numbers 1-5 and 7-10. The system ends with a double bar line.

Third system of musical notation. The staff is in 4/4 time. The melody continues with slurs and accents. The guitar tablature shows fingerings for the right hand, with numbers 1-5 and 7-10. The system ends with a double bar line.

Fourth system of musical notation. The staff is in 4/4 time. The melody continues with slurs and accents. The guitar tablature shows fingerings for the right hand, with numbers 1-5 and 7-10. The system ends with a double bar line.

Fifth system of musical notation. The staff is in 4/4 time. The melody continues with slurs and accents. The guitar tablature shows fingerings for the right hand, with numbers 1-5 and 7-10. The system ends with a double bar line.

Whole Tone Study

Instagram (11/1/19)

The musical score is written for guitar in 4/4 time, featuring a whole-tone scale in E major. It consists of three systems of music, each with a standard staff and a corresponding guitar tablature staff. The first system contains two measures of music. The second system contains two measures of music. The third system contains one measure of music followed by a double bar line and a final chord. The tablature includes various fret numbers and techniques such as bends and slides.

Instagram (12/22/19)

The image displays a musical score for the song "The Sound of Silence" by Simon & Garfunkel. It includes a guitar part and a fingerstyle guitar part. The guitar part is written in standard notation on a single staff, featuring a key signature of one sharp (F#) and a 4/4 time signature. The fingerstyle guitar part is written in tablature on a six-line staff, with fret numbers indicated by numbers 1 through 14. The score is divided into four measures. The first measure shows the guitar playing a series of chords and the fingerstyle guitar playing a sequence of notes. The second measure continues the melody. The third measure features a dynamic marking of 'P' (piano) for the guitar. The fourth measure concludes the piece with a double bar line. The fingerstyle guitar part includes a half-note bend (1/2) in the second measure and a half-note bend (1/2) in the third measure. The guitar part includes a dynamic marking of 'P' (piano) in the third measure.

D Minor Improv

Dm (add9)

G7/D

Two musical systems. The first system shows the Dm (add9) chord in 4/4 time, with a treble clef and a key signature of one flat. The second system shows the G7/D chord in 4/4 time, with a treble clef and a key signature of one flat. Both systems include a guitar tablature below the staff.

Dm7 $\flat$ 6

A musical system for the Dm7 $\flat$ 6 scale. It features a treble clef, a key signature of one flat, and a 4/4 time signature. The scale is written in a single line with a guitar tablature below it. The notation includes accidentals and fingerings.

B $\flat$ maj $\flat$ 7/13

A musical system for the B $\flat$ maj $\flat$ 7/13 scale. It features a treble clef, a key signature of one flat, and a 4/4 time signature. The scale is written in a single line with a guitar tablature below it. The notation includes accidentals and fingerings.

Fmaj7

A musical system for the Fmaj7 scale. It features a treble clef, a key signature of one flat, and a 4/4 time signature. The scale is written in a single line with a guitar tablature below it. The notation includes accidentals and fingerings.

A $\flat$ m7 $\flat$ 6

A musical system for the A $\flat$ m7 $\flat$ 6 scale. It features a treble clef, a key signature of two flats, and a 4/4 time signature. The scale is written in a single line with a guitar tablature below it. The notation includes accidentals and fingerings.

E7b9#5

Handwritten musical notation for E7b9#5. The notation includes a treble clef, a 4/4 time signature, and a key signature of one flat (Bb) and one sharp (F#). The melody consists of eighth and quarter notes, often beamed together. The bass line is written on a bass clef staff with fingerings (5, 8, 6, 9, 7, 10, 7, 8, 7, 8, 10, 7) and a final triplet marked with a circled '3' and a 'P' (piano) dynamic.

[illegible]

Instagram (2/2/20)

The image displays a musical score for the song "The Wind" by The Beatles. It includes a guitar part in treble clef with a key signature of one sharp (F#) and a 12/8 time signature. The guitar part consists of a series of eighth and sixteenth notes, often beamed together, with some notes marked with an 'H' for harmonic. Below the guitar staff are two staves for guitar and bass tabs, labeled 'T' (treble) and 'B' (bass). The tabs use numbers to represent fret positions and include slurs and ties to indicate phrasing and timing. The guitar tab includes fret numbers such as 14-16, 16-18, and 16-17. The bass tab includes fret numbers such as 17, 14-16, 16-17, and 14. The score is presented in a clean, black-and-white format with a large, faint watermark in the background.

The image displays a musical score for the song "The Sound of Silence" by Simon & Garfunkel. It includes a guitar part and a bass part. The guitar part is written on a single staff with a treble clef, featuring a key signature of one sharp (F#) and a 4/4 time signature. The melody is composed of eighth and sixteenth notes, with some chords. The bass part is written on a single staff with a bass clef, featuring a key signature of one sharp (F#) and a 4/4 time signature. The bass line consists of eighth and sixteenth notes, often playing in harmony with the guitar. The score is divided into two systems. The first system contains four measures of music, and the second system contains four measures. The guitar part is marked with "H" for harmonic, indicating where to play natural harmonics. The bass part is marked with "TAB" for tablature, showing fret numbers and bends. The background of the image is a light blue gradient with a faint, stylized graphic of a person's head and shoulders.

The image displays a musical score for the song "The Sound of Silence" by Simon & Garfunkel. It includes a guitar part and a bass part. The guitar part is written in standard notation on a single staff, featuring a key signature of one sharp (F#) and a 4/4 time signature. The melody is characterized by its iconic, haunting quality, with many notes marked with a 'H' for harmonics. The bass part is written in TAB notation on a six-string guitar, showing fret numbers and string numbers. The score is divided into two systems, each containing a guitar staff and a bass staff. The guitar staff uses a treble clef and a key signature of one sharp. The bass staff uses a bass clef and a key signature of one sharp. The bass part includes fret numbers and string numbers, with some notes marked with a 'H' for harmonics. The score is presented in a clean, black and white format, with a large, stylized watermark of the letters "G" and "A" in the background.

Musical score for "The Sound of Silence" by Simon & Garfunkel. The score is in treble clef, key of D major (F#), and 12/8 time. It features a melody line with a guitar accompaniment. The guitar part is written in TAB format below the staff. The melody line includes a key signature change from D major to C major (F# to F) at measure 15. The guitar TAB includes fret numbers and fingerings (H for hammer-on, P for pull-off). The score is divided into two systems, each containing measures 1 through 15.

Musical score for "The Wind" by The Beatles, featuring guitar and bass tabs. The score is in 12/8 time, key of B-flat major, and consists of two systems. The first system has a 12/8 time signature and a key signature of one flat. The second system has a 4/4 time signature and a key signature of one flat. The guitar part is written in standard notation with various ornaments like 'H' (harmonic), 'sl.' (slide), and 'P' (palm mute). The bass part is written in TAB notation with fret numbers and slurs.

A Little Slower

Handwritten musical notation for 'A Little Slower' in 7/8 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with slurs and accents. The piece ends with a triplets and a sl. (sustained) marking.

Tiny bit slower

Handwritten musical notation for 'Tiny bit slower' in 4/4 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with slurs and accents. The piece ends with a Ritardando marking.

A Little Faster

Handwritten musical notation for 'A Little Faster' in 16/16 time. The treble clef staff shows a melodic line with slurs and accents. The bass clef staff shows a bass line with slurs and accents. The piece ends with a Ritardando marking.

CHAPTER 5

TECHNIQUE AND PRACTICE

Chapter 5: Technique and Practice

Bass Lines

A good place to begin talking about bass lines is in relation to the two most common harmonic rhythms in jazz.

1. 2 chords per bar
2. 1 chord per bar

When we have two chords per bar there are three basic types of lines to choose from:

Two Chords per Bar:

1. Roots followed by upper or lower diatonic neighbor.

D.N. = Diatonic Neighbor
C.N. = Chromatic Neighbor
I = Inversion

Ex. 238

Cmaj7 D.N. **Am7** D.N. **Dm7** D.N. **G7** D.N.

TAB: 3 3 0 2 0 0 3 2

Ex. 239

2. Roots followed by chromatic neighbor.

Cmaj7 C.N. **Am7** C.N. **Dm7** C.N. **G7** C.N.

TAB: 3 6 0 4 0 4 3 2

Ex. 240

3. Ascending or descending inverted movement.

Bmaj7 **D7/A** **Gmaj7** **Bb7/F** **Ebmaj7**

TAB: 2 2 0 0 3 3 1 1 1

Ex. 241

4. Doubling the root on chromatic basslines.

Bbmaj7 **Bdim7** **Cm7** **C#dim7** **Dm7**

TAB: 6 6 7 7 8 8 9 9 10

One Chord per Bar:

1. Play the basic triad (in any inversion) on the first three beats and an upper or lower neighbor on the last.

Ex. 242

[Basic Triad] N.T. [Triad] N.T.

A $\flat$ maj7

F7 $\flat$ 9

B $\flat$ 7

2. Four chords a P5th descending apart.

Ex. 243

A. Scalar ascending (use appropriate modes)

Am7

N.T.

D7

N.T.

Gmaj7

N.T.

Cmaj7

On minor chords, neighbor tones fall on the 4th beat on Maj & Dom they fall on the 3rd.

Ex. 244

B. Scalar descending (use appropriate modes)

Am7

D7

Gmaj7

Cmaj7

Note: there are no passing tones in Ex. 244 because there are five scale tones between chords.

Ex. 245

3. Chromatic

A7

N.C.T.

N.C.T.

Am7

N.C.T.

N.C.T.

D7

N.C.T.

Gmaj7

N.C.T. = Neighboring (Chromatic) Tones

Also Try:

Ex. 246a

A7

Am7

Ex. 246a is a musical exercise in 4/4 time. The first staff shows a treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The melody consists of quarter notes: A4, B4, C#5, D5, and E5. The second staff shows a bass clef with a key signature of one sharp (F#) and a 4/4 time signature. The bass line consists of quarter notes: A2, G2, F#2, E2, and D2. The exercise is divided into two measures. The first measure contains the first five notes of the melody and bass line. The second measure contains the final note of the melody (E5) and the final note of the bass line (D2).

Ex. 246b

A7

Am7

Ex. 246b is a musical exercise in 4/4 time. The first staff shows a treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The melody consists of quarter notes: A4, B4, C#5, and D5. The second staff shows a bass clef with a key signature of one sharp (F#) and a 4/4 time signature. The bass line consists of quarter notes: A2, G2, F#2, and E2. The exercise is divided into two measures. The first measure contains the first four notes of the melody and bass line. The second measure contains the final note of the melody (D5) and the final note of the bass line (E2).

Ex. 246c

A7

Am7

Ex. 246c is a musical exercise in 4/4 time. The first staff shows a treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The melody consists of quarter notes: A4, B4, C#5, and D5. The second staff shows a bass clef with a key signature of one sharp (F#) and a 4/4 time signature. The bass line consists of quarter notes: A2, G2, F#2, and E2. The exercise is divided into two measures. The first measure contains the first four notes of the melody and bass line. The second measure contains the final note of the melody (D5) and the final note of the bass line (E2).

There are many combinations of chromatic type lines. Use these as a point of departure.

One Chord for Two Bars

In this instance we want to arrive on the fifth of A⁷ at the beginning of the second measure.

Ex. 247a

A⁷ 3 3 5th N.T. Am⁷

TAB: 0 7 7 0 4 4 8 7 4 0 6 7

Ex. 247b

A⁷ N.T. 5th Am⁷

TAB: 0 4 4 3 2 0 4 2 0

The second example used the F# (13th) on the A⁷ for the sake of variety.

Open strings in bass lines can lead to more intervallic sounds.

Ex. 248

E⁷ tritone sub (Bb7) Amaj⁷

TAB: 7 0 4 5 6 7 7 6 0

Pedal Points

Pedal points are used in jazz to create excitement behind a solo. They many times provide a springboard to more chromatic type playing and can bring a solo or certain section of a tune to climax.

The most common type pedal points are:

Tonic Pedals

Ex. 249

F Blues

F7

F Pedal - - - - -

5 **Bb7** **F7** **A-7** **D7**

- - - - - Pedal Cont. - - - - - Walk

9 **G-7** **C7** **F7** **D7** **G-7** **C7**

Dominant Pedals

Ex. 250

A-7 **D7** **GMaj7** **GMaj7**

(Dominant Note)

D Pedal - - - - -

Rhythm Changes

Ex. 251

B $\flat$ Maj7 G7 C-7 F7 D-7 G7 C-7 F7

F Pedal

5 F-7 B $\flat$ 7 E $\flat$ Maj7 E $\flat$ 7 B $\flat$ /F G7 C-7 F7

E F Pedal

↑ Break for the E $\flat$ 7 Chord

Pedals are best used

1. in even phase lengths (4,8,12,16 bars)
2. when a particular rhythmic pattern is used throughout.

Ex. 252

Rhythm Changes

B $\flat$ Maj7 G7 C-7 F7 D-7 G7 C-7 F7

ty two bar form. Feel free to divide

e.

The image shows a musical score for a two-bar form exercise. It consists of six staves of music. The first staff begins with a treble clef and a key signature of one flat (B-flat). The first bar contains a triplet of eighth notes (F4, G4, A4) followed by a quarter note (B4). The second bar contains a dotted quarter note (F4) and a half note (B4). The second staff continues the melody with a quarter note (B4) in the first bar and a dotted quarter note (F4) followed by an eighth-note triplet (G4, A4, B4) in the second bar. The third staff has a dotted quarter note (F4) and an eighth note (G4) in the first bar, followed by a quarter rest and an eighth-note triplet (G4, A4, B4) in the second bar. The fourth staff starts with a half note (F4) in the first bar, followed by a quarter note (B4) and a quarter rest in the second bar. The fifth staff begins with an eighth-note triplet (G4, A4, B4) and an eighth note (F4) in the first bar, followed by a half rest and a quarter note (B4) in the second bar. The sixth staff starts with a quarter rest and a quarter note (B4) in the first bar, followed by a half note (F4) and a dotted quarter note (B4) in the second bar. The seventh staff is partially visible at the bottom, showing a quarter note (B4) and a dotted quarter note (F4) in the first bar.

Ex. 256

4/4

Musical score for 'Ain Ba Khair' in 4/4 time, featuring a treble clef and a key signature of one sharp (F#). The score consists of eight staves of music. The melody is written in a single line, with various note values including quarter, eighth, and sixteenth notes, as well as rests. A watermark 'Ain Ba Khair' is visible across the score.

Solos Over Standard Forms

I have included a few solos over standard chord progressions in order to incorporate some of the ideas that we have learned. Practice them slowly with the metronome on two and four to develop your swing feel. I also suggest doing your own harmonic analysis to study the devices used.

The musical notation for the guitar solo is presented in two systems. The first system, labeled 'D7alt', features a treble clef staff with a key signature of one flat (Bb) and a 12/8 time signature. The melody is composed of eighth and sixteenth notes, with a 'sl.' (slide) marking over a measure. The second system, labeled 'Gmaj7', continues the melody with similar rhythmic patterns and a 'sl.' marking. Below the staff, a tablature (TAB) line provides fret numbers for each note, with bends indicated by curved lines and numbers (e.g., 8-10, 8-11, 7-9, 9-10, 7-9, 9-12-10). The notation includes various musical symbols such as accidentals, slurs, and dynamic markings like 'H' (harmonic) and 'P' (piano).

F#dim7

The image shows the musical notation for the F#dim7 chord and its scale. The top staff is a treble clef with a key signature of one sharp (F#). The chord F#dim7 is represented by four notes: F#4, A4, B4, and D5. The scale is shown in two staves. The first staff has a treble clef and a key signature of one sharp. The scale notes are F#4, A4, B4, C5, D5, E5, F#5, and G5. The second staff is a bass clef with a key signature of one sharp. The scale notes are F#4, E4, D4, C4, B3, A3, G3, and F#3. The notes are connected by a slur, indicating a scale run.

[illegible]

The first system of the musical score for 'The Sound of Silence' is shown. It consists of a treble clef staff and a guitar tablature staff. The treble staff contains the melody for the first 13 measures, with chords F7, F#dim7, C7, and A7alt indicated above. The tablature staff shows the corresponding fret numbers for the guitar. The first measure is a whole note chord F7 (F#2, C3, G2, Bb2). The second measure is a whole note chord F#dim7 (F#2, A2, Bb2, C3). The third measure is a whole note chord C7 (C2, E2, G2, Bb2). The fourth measure is a whole note chord A7alt (A2, C3, E3, G#3). The fifth measure is a whole note chord A7alt (A2, C3, E3, G#3). The sixth measure is a whole note chord A7alt (A2, C3, E3, G#3). The seventh measure is a whole note chord A7alt (A2, C3, E3, G#3). The eighth measure is a whole note chord A7alt (A2, C3, E3, G#3). The ninth measure is a whole note chord A7alt (A2, C3, E3, G#3). The tenth measure is a whole note chord A7alt (A2, C3, E3, G#3). The eleventh measure is a whole note chord A7alt (A2, C3, E3, G#3). The twelfth measure is a whole note chord A7alt (A2, C3, E3, G#3). The thirteenth measure is a whole note chord A7alt (A2, C3, E3, G#3).

The first system of the musical score for 'The Sound of Silence' features a treble clef and a key signature of one flat (B-flat). The tempo is marked 'Andante'. The first staff contains a melody with a Dm7 chord above the first measure and a G7alt chord above the fifth measure. The second staff is a guitar tablature with fret numbers 8, 5, 6, 9, 6, 8, 8, 6, 6, 6, 8, 6, 6, 8, 5, and 7. The system ends with a double bar line.

Practicing

Here are some important points for practicing:

- Use your time effectively (don't practice things that you already know).
- Divide your practice time by percentages:

1. Technique	=	15%
2. Ear Training	=	15%
3. Review	=	35%
4. New Material	=	35%
		100%

Left Hand

Finger independence drills (1,2,3,4, finger combinations)

1	2	3	4	2	3	4	1	3	4	1	2	4	1	2	3
1	2	4	3	2	3	1	4	3	4	1	2	4	1	3	2
1	3	2	4	2	1	3	4	3	2	1	4	4	2	3	1
1	3	4	2	2	1	4	3	3	2	4	1	4	2	1	3
1	4	3	2	2	4	3	1	3	1	2	4	4	3	1	2
1	4	2	3	22	4	1	3	3	1	4	2	4	3	2	1

Right Hand

I. w/pick

1. Rhythms w/ alternate picking
2. sweep picking
3. cross string exercises

II. w/fingers

1. Arpeggios studies
2. MI alteration on scales
3. tremolo studies IMA

Technique should be broken down into old/new material.

Review Material

- Consisting of things practiced in the past week
- Transcribed solos, new lines, voicings, tunes, compositions, etc.
- Keep a log to prevent the loss of previously learned material. Write down how, when and what was practiced using musical notation or chord diagrams when needed. Record any details such as fingerings and position changes

New Material

- New fingerings, chord substitutions, lines, transcribed solos, chord voicings, new techniques, phrasing, sight reading, etc.
- This Book!

Ear Training

- Transcribe solos
- Harmonic and melodic interval dictation (w/ a partner or tape)
- Melodic dictation
- Chord identification (EX. Maj⁷/#5)
- Mode identification (dorian, altered dominant for example)
- triad over bass note identification (Ex. Triad w/ b9 in the bass C/Db)
- Sight singing
- Play a note and sing an interval or scale above or below it
- Play three notes and identify intervals contained
- Play a chord and sing a line over it. Then write down the intervals you sang
- Try to write down harmonic progressions off recordings without your instrument (and with)
- Try to sing your favorite tunes in their original keys without your instrument and then check yourself to see if you are in the correct key
- Work on recognizing the exact pitch of a note (pitch color). You will find it easier on guitar than on a foreign instrument
- GOOD LUCK!

Rick Beato is a musician, teacher and father of three. He has a B.M. in Music Education and an M.M. in Jazz Performance from the New England Conservatory of Music. He is a record producer with numerous Platinum selling records and also co-wrote the RIAA certified Platinum selling song “Carolina” with Parmalee. In late 2013, “Carolina” climbed to Number One for 2 weeks on the Billboard Country Music Charts.

He is currently the co-founder of Intrvyl LLC a music education company which has developed The Beato Ear Training Program a relative pitch training platform for adults. In the past years he has grown his “Everything Music” Youtube Channel to 1.5 Million Subscribers and over 175 Million views.
